Audi A5 Cabriolet

Audi A5 Cabriolet

The models and equipment versions illustrated and described in this brochure and some of the services listed are not available in all countries. Some of the cars illustrated are equipped with optional equipment for which an extra charge is made. Details concerning the delivery specifications, appearance, performance, dimensions and weights, fuel consumption and running costs of the vehicle were correct to the best of our knowledge at the time of going to press. Deviations from the colours and shapes shown in the illustrations may occur. No liability is accepted for errors and printing errors. The right to introduce modifications is reserved. Not to be reproduced, including in part, without the written approval of AUDI AG.

This brochure is printed on paper made from pulp bleached without the use of chlorine.

The Audi A5 Cabriolet. A new claim. ↴

There are moments you have already experienced several times. And all of a sudden, they feel new again. Because everything feels more intense. Because you feel more than before. And because you see things you did not see before. A journey in the new Audi A5 Cabriolet is one of those moments. Because you exchange the ordinary for the extraordinary. And you feel that it is more than just a new Cabriolet. It is a new claim.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Until now, you looked at a vehicle.
Now you enjoy it. ▮

_The first exciting journey ...

... is made by your eyes. The moment you set eyes on the silhouette of the new Audi A5 Cabriolet. Its long wheelbase. The extended bonnet. The short overhangs. Details which underline the athletic Coupé character just as much as the striking body lines. An unmistakable presence that is also felt even with the fabric hood closed. Experience dynamics anew. Even when you are not at the wheel.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

„Each pause with the Audi A5 Cabriolet ...

... is pure energy. Take the opportunity to envisage the powerful design features.

The headlights give the Audi A5 Cabriolet a determined impression. The striking front section contributes to this, as does the horizontal body line of the rear. Exclusivity does not fall by the wayside: accentuated chrome and aluminium elements highlight the individuality and turn each stop into sheer enjoyment.

_Freedom, at the wheel ...

... of the Audi A5 Cabriolet takes on a whole new meaning. A multitude of options awaits you. Agility and comfort complement each other to make each moment a precious one. Supported, for example, by the optional front headroom heating, which usually lets you forget about the low temperatures. An excellent climate remains even after closing the hood: the intelligent automatic air conditioning memorises the set temperature whether the hood is open or closed and automatically adjusts itself once you have actuated it again. All you have to do is enjoy.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Driving enjoyment

16
17

Until now, you opened a hood.
Now you open a new horizon.

Above you the endless sky. The sun warming your skin. The wind rustling your hair. Time loses its significance as the skyline of the city

passes by and you move on to pastures new. A journey with the Audi A5 Cabriolet embodies the purest type of driving fun. The classic fabric represents a large portion of that fun. Ultimately, it shapes the car's special character. At the same time it is characterised by a high degree of comfort and well thought-out details. So it only takes 15 seconds until the fully automatic hood makes room for summer freshness. And only slightly longer to close when needed. You need not interrupt your discovery trip to do so. Up to a speed of 50 km/h the hood can be operated while driving. Only the optional acoustic hood is even more impressive. When closed, it reduces noise so effectively that you can fully concentrate on your driving experience.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Until now, you expected space.
Now you appreciate size.

These are the intensive driving moments which make the Audi A5 Cabriolet so inviting and express themselves in the interior. At a glance you are aware of the tremendous claim to exclusivity, design and technology. Immediately evident is the amount of space which can accommodate four people in considerable comfort. For example with heated and ventilated climate-controlled comfort front seats on request. An automatic belt provider for even more comfort and ease. Or the optional drinks holder integrated in the rear seat for the two rear occupants. Anyone should be able to experience freedom.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

_In the cockpit the sun's coming up.

Superior quality materials create a sovereign atmosphere and emphasise the high processing quality. Each detail is ergonomic and precisely tailored to the driver. Such as the optional MMI® – the central control system in the A5 Cabriolet.

The MMI® navigation plus enables navigation by means of 3D maps shown on the high-resolution colour display.

At the same time, music and video files can be played with excellent tone and picture quality. Just in case you want to enjoy more than the wind in your hair and the countryside.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

_The acoustic experience is ensured by the optional Bang & Olufsen Sound System. With its 505 watts, distributed between twelve loudspeakers, it provides a crystal clear, transparent stereophonic sound, turning every journey into a concert tour.

_Space in the Audi A5 Cabriolet is excellently exploited in all respects. The split and folding rear seat backrest with remote unlocking function makes it easy to stow away long objects. Suitcases, bags and leisure time requisites fit into the generous luggage compartment, which has a volume of 320 litres and is easy to load even with the hood open.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Until now, you counted kilometres.
Now you gather experiences. ▬

_Step inside. Open the hood and start the engine. Take a brief deep breath. Then lightly press the accelerator pedal – that is enough to ignite the controlled power of the Audi A5 Cabriolet. Its wide track and optimised axle load distribution give it an incomparable feeling for the road. The direct steering ensures agile handling. The six-speed manual transmission demonstrates its tremendous reaction speed. Short shift travel lets you feel the concentrated engine power and enhances the pleasure of each moment of the drive.

The optional multitronic automatic transmission is particularly convenient. It has continuously variable gearshifting and is characterised by excellent pulling power as well as low consumption. The sporty highlight: the optionally available S tronic. This 7-speed dual clutch transmission, in which the next gear is already engaged before you select it, ensures gearshifting without any perceptible break in propulsive power. And ensures perceptible agility too.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

_When cornering, you feel ...

... the athletic character particularly clearly. When you steer into it with the Audi A5 Cabriolet almost without loss of dynamic power and cannot wait to get to the next hairpin. The quattro® all-wheel drive with sports differential, which is available on request for diverse engine models is responsible for this, whereby the electronically controlled differential distributes various amounts of driving force to each rear wheel. The next corner already awaits you.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Until now, you experienced power.
Now you feel passion.

Each kilometre, each straight and each corner has exciting impressions in store. With the range of engine variants of the Audi A5 Cabriolet you will soon forget your everyday affairs and get on with discovering something new. Enormous torque strength and power reserves characterise the power units just as smooth running and efficiency. Bundled engineering power is embedded in each of the engines. Example FSI®: the technology used in all petrol engines burns fuel more quickly and efficiently due to direct injection. Or TFSI®, whose turbocharger ensures additional power delivery. When combined with the Audi valvelift system, which reduces internal engine friction, the 2.0 TFSI and 3.2 FSI engines deliver tremendous performance. Power which is likewise available in the innovative TDI diesel engines. Because no matter which drive unit you decide on: Audi efficiency should accompany you on any route. You will feel it.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Each journey with an Audi A5 Cabriolet is unique.

Because each journey is different. Thanks to the optional Audi drive select with dynamic steering and/or suspension with damper regulation or quattro® with sports differential, you have the opportunity to individually adjust the vehicle characteristics. Depending on whether you prefer a sporty or comfortable drive. Whatever your choice, you are well protected. You can react confidently to almost any situation with the standard active and passive safety systems. So you can enjoy more than just the road: you can enjoy a new claim.

The fuel consumption and CO₂ emission figures can be found from page 62 onwards.

Until now, each route had a destination.
Now, each destination has a route.

**Increased dynamics.
Enhanced efficiency.**

Sportier than ever. With the new Audi S models, you experience power on a whole new level. Delivery of power and acceleration are tradition in the breathtaking Audi sports cars. Technical highlights, such as the specially adjusted S sports suspension, high-performance brakes, ESP or the quattro® permanent all-wheel drive, allow you to really experience this force.

But an Audi bearing the S emblem incorporates so much more. Maximum agility combined with efficiency and functionality. See for yourself – drive the Audi S5 Cabriolet.

Efficiency: standard in every Audi.

The direct route to enhanced efficiency is via innovation. For decades, Audi has been continuously providing decisive impetus for the entire automobile industry, thereby proving that effective efficiency is the result of a sustainable strategy. That's why fuel consumption and emissions-reducing measures are fitted as standard to all Audi models. The extensive technologies are combined in a model-specific manner and are implemented consistently throughout the entire vehicle fleet.

The Audi Space Frame (ASF) is a milestone in Audi's extensive experience in lightweight construction. With this revolutionary construction method, the weight of the body

shell is reduced by about a third in comparison with conventional steel construction. The latest innovation in lightweight construction: the weight-reducing aluminium hybrid construction used in the new Audi A6.

Furthermore, with the TDI, Audi has developed one of the world's most successful diesel technologies. The combination of direct diesel injection and turbocharging provides high efficiency and superior engine power. Current highlight: the 3.0 TDI clean diesel in the Audi A4 Saloon¹. It already fulfils the EU6 emissions standard that does not come into force in Europe until 2014.

Also noteworthy: the downsizing technology of the TFSI[®] petrol engines. Five times in succession, the 2.0-litre TFSI engine has been voted "Engine of the Year"². A new evolutionary stage in efficiency is set by Audi with the Q5 hybrid quattro: as a pioneer of electrical mobility, it marks the entry into a future that in the long term will be emissions-free.

The potential of the frugal TDI and TFSI engines is brought particularly efficiently onto the road with the S tronic dual-clutch transmission with low engine speeds and shorter

gearshifting times. And the aerodynamic design of the Audi bodies provides additional savings in fuel by combining low air resistance with low levels of lift.

All measures contribute towards a perfect combination of efficiency and sportiness in every Audi. Today – and also in the future. So that you can at all times feel the demands that we have always placed on ourselves: Vorsprung durch Technik.

¹Fuel consumption in l/100 km: urban 8.7; extra-urban 5.5; combined 6.7; CO₂ emissions in g/km: combined 175.

²The renowned "International Engine of the Year Awards" are awarded by Great Britain's car magazines: www.ukipme.com/engineoftheyear

Audi exclusive* – individually means manually.

Exterior and interior – combined to suit your wishes. Selected, individual colours for the paintwork of the vehicle; fine leather, elegant Alcantara and top quality woods and inlays for the interior trim of your Audi. It is exactly this combination, your personal choice from the versatility of high quality materials and equipment elements that turns an Audi into your Audi, making it something really special. You can find information on your customisation options from your Audi partner or from the customisation studio at the Audi Forum in Neckarsulm.

Winter wheels

Lightweight forged aluminium winter wheels,
6-arm design¹, size 7.5 J x 17 with 225/50 R 17
tyres, permissible top speed 210 km/h, can be
fitted with snow chains

Cast aluminium winter wheels,
15-spoke star design, size 8.5 J x 18 with 245/40
R 18 tyres, permissible top speed 240 km/h, cannot
be fitted with snow chains

Run-flat tyres, enabling the journey to be continued safely even when a tyre is flat. Maximum speed 80 km/h, maximum run-flat distance 30 km

Wheel bolts, anti-theft, can only be loosened using adapter provided

Tyre repair kit, with 12 V compressor and tyre sealant; permissible top speed 80 km/h

Space-saving spare wheel, can only be ordered with jack

Tyre pressure control display, provides a visual and acoustic warning of any loss in pressure in one or more tyres; display in the driver information system

Vehicle tool kit, in the luggage compartment

Jack, in the luggage compartment

¹ Also available with run-flat tyres.

² Only for 2.0 TFSI 155 kW, 3.2 FSI and 3.0 TDI.

<p>Lights</p> <p>xenon plus including headlight cleaning system, the headlights with durable gas discharge technology for dipped and main beam enable an intensive illumination of the road with evenness and range, in a colour resembling daylight both close-up and in the distance. The automatic-dynamic beam angle control prevents oncoming traffic from being dazzled; daytime running lights and rear lights in LED technology with low energy consumption</p> <p>Daytime running lights with separate reflectors, with xenon plus LED daytime running lights with low power consumption integrated into the headlights</p> <p>Headlights, halogen headlights utilising ellipsoid technology with clear glass covers, electric headlight range control and parking light function, daytime running lights with separate reflectors</p> <p>adaptive light, the dynamic cornering light identifies the course of the road from the movement of the steering wheel. The headlights swivel into the corner as a function of steer angle, thereby variably illuminating the bend; operational between speeds of approx. 10 km/h and 110 km/h. (Can only be ordered in conjunction with xenon plus)</p> <p>Main beam assist, working within system limits, automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the main beam is automatically switched on or off. The system thereby improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience. (Can only be ordered in conjunction with automatically dimming interior mirror)</p> <p>Interior lighting with delayed switch-off and contact switches on all doors; lights for luggage compartment, driver, front-passenger and rear compartment, 2 reading lights at front, make up mirror illumination, ambient lighting</p> <p>Light package comprises illuminated vent controls and inside door handles, active door reflectors, entry lights, front and rear footwell lights, illuminated glove compartment, LED technology for the front interior lighting and make-up mirror illumination</p> <p>Rear lights in red, reversing lights in white, integral rear fog lights</p> <p>LED rear lights, LED brake and tail lights; reversing lights, rear fog lights and indicators have a light bulb. (Only in conjunction with xenon plus)</p> <p>Front fog lights, integrated in the bumper, with ring trim in aluminium look</p> <p>Headlight cleaning system uses water and high pressure, for improved illumination and good visibility. (Standard in conjunction with xenon plus)</p> <p>Light/rain sensor to control the automatic headlights, the coming home/leaving home function and the automatic windscreen wiper function; includes windscreen with grey-coloured strip along the top edge</p>
<p>Mirrors</p> <p>Exterior mirrors with integral LED indicator; electrically adjustable; body-coloured housings; convex, flat or aspherical mirror glass</p> <p>also optionally:</p> <p>heated, both exterior mirrors and windscreen washer jets heated</p> <p>heated and electrically folding</p> <p>heated, electrically folding and automatically dimming (can only be ordered in conjunction with automatically dimming interior mirror)</p> <p>heated, electrically folding and automatically dimming, with memory function (can only be ordered in conjunction with automatically dimming interior mirror and driver's seat with memory function)</p>

<p>Interior mirror, can be dimmed</p> <p>also optionally:</p> <p>automatically dimming (can only be ordered in conjunction with light/rain sensor)</p>
<p>Roof systems</p> <p>Fully automatic hood, made from insulated, 3-ply fabric, hood actuation up to a speed of 50 km/h</p> <p>Acoustic hood, due to optimised material thickness and connection, the noise level in the interior is clearly improved, including make-up mirror illumination, LED interior front and rear light</p> <p>Wind deflector, can be stowed away in the luggage compartment in the spare wheel well, as long as the space-saving wheel is not ordered</p>
<p>Closing systems</p> <p>Central locking with autolock function and radio-operated remote control incorporated into the vehicle key</p> <p>Radio-operated remote control for the central locking, with interior switch incorporated into the vehicle key, including glove box lock; unlocks and locks the doors, windows, luggage compartment lid and fuel filler cap at the touch of a button; variable rolling code</p> <p>Comfort key, access and authorisation system; the key only needs to be carried with you; the engine is started and switched off via the engine start/stop button on the centre console, the vehicle is locked from outside via buttons on both door handles; the vehicle can also be opened from the luggage compartment lid, convenience closing/opening of hood via the radio-operated remote control within a 4 m radius of the vehicle</p> <p>Immobiliser, electronic, incorporated in engine control unit, automatically activated by the vehicle key</p> <p>Garage door opener (HomeLink), programmable radio-operated remote control, operating buttons incorporated in the interior lighting module; can be used to open many garage doors and exterior gates; allows control of security and lighting systems; please contact your Audi partner for further information</p> <p>Anti-theft alarm including interior monitoring and tow-away protection via angle of inclination sensor; can be deactivated; signal horn for monitoring the doors, bonnet and luggage compartment lid independent of vehicle electrical system</p> <p>Fitting for Tracking Assistant, fitting for connecting a Tracking Assistant (available from Audi Genuine Accessories) that enables a stolen vehicle to be located</p> <p>Ignition lock electronic, ignition key features integral chip, automatically stores relevant vehicle service data (mileage, chassis number and much more)</p>
<p>Glazing</p> <p>Heat-insulating glass, green tinted, windscreen made of laminated glass</p> <p>Rear window, made of glass, heated, with timer</p> <p>Windscreen wash/wipe system, 2-speed operation, 4-speed adjustable intermittent wipe, flick-wipe function, automatic wash/wipe function</p>

<p>Further exterior equipment</p> <p>Provision for trailer towing hitch, includes the wiring to the spare wheel well, a prepared ABS control unit and adapted engine cooling. The set of parts for retrofitting is available from Audi Genuine Accessories</p> <p>Trailer towing hitch, removable and lockable, ball-joint coupling and ball head made from forged steel, the 13-pin socket can be swivelled out of sight behind the bumper skirt; when removed, the towing device can be stored in the spare wheel well; trailer stabilisation system via ESP</p> <p>Aluminium-look exterior, surface of windscreen frame, winding capping trim and cover strip in anodised aluminium</p> <p>Audi Singleframe, radiator grille in Stone Grey; high-gloss Black for the 3.0 TDI and 3.2 FSI</p> <p>Exhaust tailpipes, visible, dual-branch design with 1 tailpipe each on left and right-hand sides, 1.8 TFSI manual and 2.0 TDI models have single-branch design with 2 tailpipes on the left</p> <p>Model name/logo, model name on the luggage compartment lid, quattro logo (on quattro® models) in radiator grille, on luggage compartment lid and in the dashboard on the passenger side; on request, vehicle can also be supplied without the model name on the rear</p>
<p>Seats/seating comfort</p> <p>4-way lumbar support, electric, for driver and front-passenger seats, with horizontal and vertical adjustment</p> <p>Adjustable front seats, electric adjustment for seat height, fore/aft position and seat and backrest angles, with electric 4-way lumbar support; additional electric head restraint height adjustment</p> <p>Memory function for driver's seat, 2 different presets for the electrically adjustable driver's seat and the exterior mirrors</p> <p>Folding rear seat backrest, can be split and 50:50 or fully folding, with remote backrest release in luggage compartment</p> <p>Seat heaters at front, heat seat cushions and backrests; on sports seats or leather seats also heat the side bolsters; individually adjustable in 6 stages for driver and front-passenger seats</p> <p>Seat heaters front and rear, features as for seat heaters at front, additionally also for rear seats. (Only available in conjunction with drinks holder incorporated into rear seat and with leather upholstery and trim or Alcantara/Leather combination)</p> <p>Heat protection (for direct sunlight) for front seat surfaces and backrests, for Alcantara/Leather combination, Milano leather upholstery and trim and Fine Nappa leather upholstery and trim. The special colour pigmentation of the leather prevents excessive build-up of heat. The infrared radiation in sunlight is reflected. The surface temperature can be reduced by up to 20 °C by the heat protection</p> <p>Centre armrest at front, adjustable lengthways; with fold-open storage compartment and a 12 V socket in the centre console</p> <p>Leather armrests in the door trims in Fine Nappa leather, includes rear side panel trims in Fine Nappa leather to create an exclusive look for the interior. (Can only be ordered in conjunction with leather trim or Alcantara/Leather combination)</p> <p>Head restraints front and rear, height adjustable at the front</p>

<p>ISOFIX child seat mounting for the rear seats</p> <p>ISOFIX child seat mounting for front-passenger seat and rear seats, with deactivation switch for the front-passenger airbag</p>
<p>Steering wheels/gear levers/controls</p> <p>Steering wheel in 4-spoke design, with full-size airbag, manually adjustable for height and reach, black</p> <p>Leather-covered steering wheel in 4-spoke design, with full-size airbag, manually adjustable for height and reach, includes gear lever knob or selector lever knob and gear lever gaiter in leather, colour coordinated with the selected interior colour</p> <p>Leather-covered sports steering wheel in 3-spoke design, with full-size airbag and in perforated leather, adjustable in height and reach, including gear lever knob or selector lever knob and gaiter in leather</p> <p>Leather-covered multifunction steering wheel in 4-spoke design, with full-size airbag, equipment as for leather-covered steering wheel; for operating the basic functions of Audi navigation systems and radios, Bluetooth interface, fitting for mobile phone or car phone; models with automatic transmission optionally available with shift paddles behind the steering wheel</p> <p>Leather-covered multifunction sports steering wheel in 3-spoke design, with full-size airbag and perforated leather, adjustable in height and reach, including gear lever knob or selector lever knob and gaiter in leather, for operating the basic functions of Audi navigation systems and radios, Bluetooth interface, fitting for mobile phone or car phone; models with automatic transmission optionally available with shift paddles behind the steering wheel</p> <p>Steering wheel rim customised with Audi exclusive leather, available in all Audi exclusive colours; individual choice of seams in various Audi exclusive colours. From quattro GmbH</p> <p>Audi exclusive gear lever knob in aluminium, from quattro GmbH</p> <p>Controls customised with Audi exclusive leather, leather-covered steering wheel rim, gear lever and gear lever gaiter; available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH</p>
<p>Climate control</p> <p>Automatic air conditioner, with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, with ram air control and manual recirculation mode, dust and pollen filter, defroster vents for the windscreen and the side windows, key-coded settings; storage of 2 temperatures for when the hood is open and closed, retrieved as a key-coded setting</p> <p>3-zone deluxe automatic air conditioner, with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, separate temperature distribution for driver, front-passenger and rear compartment, temperature and air distribution adjustable left and right in the front, control panel for setting the temperature in the rear compartment in the rear centre console, automatic recirculation mode by means of air quality sensor, front control panel with digital display, includes rain, light and humidity sensor, combined filter, indirect ventilation</p> <p>Headroom heating at front, adjustable in 3 stages, vents on the front-seat backrests. (Can only be ordered in conjunction with climate-controlled comfort seats at the front or front sports seats)</p>

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

Luggage securing and storage systems
Storage compartments , in the front door trim with storage option for drink bottles, storage compartments in the right and left side trim. (On right-hand side only if Audi sound system or Bang & Olufsen Sound System are fitted), storage nets on the front seat backrests
Glove compartment , lockable
Drinks holder in the centre console
Drinks holder incorporated into the rear seat for 2 drinks, includes cover and additional storage compartment underneath the front-passenger seat. (Can only be ordered in conjunction with front centre armrest)
Lashing points , four in the luggage compartment, for securing luggage and other objects
Ski/snowboard bag , for the practical transportation of long objects, e.g. up to 4 pairs of skis up to 200 cm in length or 2 snowboards
Variable hood compartment , with lowering hood tray. The hood tray lowers automatically when the hood is opened, if sufficient room is available in the luggage compartment. For loading, the hood tray can be lifted when the hood is closed
Further interior equipment
Floor mats front in velour, coordinated with the carpet colour
Floor mats front and rear in velour, coordinated with the carpet colour
Audi exclusive floor mats , floor mats with leather piping. Individual choice of colour combinations for mats and piping from a selection of different Audi exclusive colours. Your Audi partner will be happy to offer you advice. From quattro GmbH
Audi exclusive carpet and floor mats , carpet including floor mats with leather piping. Individual choice of colour combinations for carpet, mats and piping from a selection of various Audi exclusive colours. Your Audi partner will be happy to offer you advice. From quattro GmbH
Door sill trims with aluminium inlays on the door sills
Electric front and rear windows , with safety system to limit closing force, one-touch opening/closing function with central window switch in the centre console
Cigarette lighters and ashtrays , ashtray in the front centre console, cigarette lighter incorporated into the front ashtray
12 V socket in the side trim of the luggage compartment on the right-hand side at the rear
Aluminium look on the interior on light switches, air conditioning system, MMI rotary/push-button control, vents and around the gear or selector lever gaiter

MMI® and navigation systems
MMI® navigation , includes navigation data (DVD), 6.5-inch colour display with high-quality map display and numerous detailed display options, dynamic route guidance with TMC (where available), MP3 and WMA-compatible DVD player for navigation data (DVD), can also be used for music CDs, additional arrow display in the driver information system, radio with triple tuner, phase diversity, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts (Can only be ordered in conjunction with a driver information system)
Navigation data (DVD) , contains navigation data for the following countries (where digitised): Andorra, Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, the Netherlands, Norway, Poland, Portugal, San Marino, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, UK and the Vatican City
MMI® navigation plus , with navigation data (hard drive), high-resolution 7-inch colour display with high-quality map display, choice of 3 alternative routes provided, map displays have topographical map colouring and show sightseeing information and 3D city models, route scrolling function, manoeuvring within the map by means of the joystick in the control button, split-screen route information (manoeuvring points, points of interest on motorways, TMC on route), detailed junction map and lane recommendations, dynamic route guidance with TMC (where available), additional arrow display in the driver information system with colour display, radio with triple tuner, phase diversity, hard drive can also be used to store music (10 GB), MP3, WMA and AAC-compatible DVD player can also be used for music and video DVDs, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts. (Can only be ordered in conjunction with a driver information system with colour display)
Navigation data (hard drive) contains navigation data for countries (where digitised) named under navigation data (DVD); also for Albania, Belarus, Bosnia-Herzegovina, Bulgaria, Macedonia, Moldova, Montenegro, Romania, Russia, Serbia and Ukraine
Driver information system , a monochrome display provides you with information from the trip computer, auto check system, MMI system display items, brake wear indicator at front and digital speed display. Furthermore the display is used for vehicles with manual transmission for shift display; the outside temperature display shows an ice crystal at temperatures under +5°C to warn of possible black ice. The integrated efficiency program assists you with consumption data overviews, a display of additional consumers and fuel-saving tips for more economic driving.
Driver information system with colour display , a high-resolution display provides you with information from the trip computer, auto check system, MMI system display items, brake wear indicator at front and a digital speed display. Furthermore the display is used for vehicles with manual transmission for shift display; the outside temperature display shows an ice crystal at temperatures under +5°C to warn of possible black ice. The integrated efficiency program assists you with consumption data overviews, a display of additional consumers and fuel-saving tips for more economic driving
Screen , 6.5-inch, monochrome, in the dashboard, for displaying radio, climate control and car menu functions as well as the time

Radio and TV systems
chorus radio with CD player, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch monochrome screen, speed-dependent volume control, phase diversity, 4 passive loudspeakers, total output 40 watts Note: certain car menu settings cannot be made using the chorus radio
concert radio with CD player and SDHC memory card reader (up to 32 GB), both MP3, AAC and WMA-compatible, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts
symphony radio with integral changer for 6 CDs and SDHC memory card reader (up to 32 GB), both with MP3, AAC and WMA-capability, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts
Digital radio reception (DAB) for concert and symphony radios and for navigation systems; reception of digital stations in accordance with the DAB standard in addition to analogue stations; in connection with MMI navigation or MMI navigation plus includes reception of DAB+ and DMB audio. With the DAB twin tuner (only available in conjunction with MMI navigation plus), a second DAB tuner permanently searches for alternative reception frequencies of the set radio station; at the same time the station list is updated. Please note: reception depends on local digital network availability
TV reception for MMI navigation plus, reception of analogue and digitally broadcast (DVB-T) unencrypted television stations (MPEG-2 standard), TV picture, teletext and Electronic Programme Guide (EPG). Facility to connect 2 external AV sources via the optional adapter cable. Please note: TV reception depends on local analogue and digital network availability. No AV or TV output whilst the car is being driven (audio output also available while the car is being driven)
Audi sound system , 6-channel amplifier, 10 speakers including centre speaker in the dashboard and subwoofer in the left side panel, total output 180 watts. (Cannot be ordered with chorus radio)
Bang & Olufsen Sound System , surround sound reproduction via 12 high-performance speakers, 1 centre speaker and 2 midrange speakers in the dashboard; 1 tweeter in each mirror quadrant; 1 woofer in each front door; 2 tweeters and 2 low/midrange units in the side panels; 1 subwoofer in the left side panel, exclusive speaker covers with aluminium trim, dynamic driving noise compensation, 10-channel amplifier, total output 505 watts. 5.1 Surround Sound reproduction is possible in conjunction with MMI navigation plus and the integral DVD drive. (Cannot be ordered with chorus radio)
CD-changer in the glove compartment for 6 CDs (MP3 and WMA-compatible), shock-resistant, easily accessible, no cartridge, each CD can be loaded or changed separately. Playback of copy-protected music files (DRM) ist not possible. (Can only be ordered in conjunction with MMI navigation or MMI navigation plus)
Audi music interface , for generation 4 and higher Apple iPods, an Apple iPhone (music functionality) as well as USB storage media and MP3 players. The Audi music interface is located in the glove compartment and operated via MMI navigation plus, MMI navigation, symphony radio, concert radio or a leather-covered multifunction steering wheel. Note: can only be used in conjunction with a special adapter cable (available from Audi Genuine Accessories). Please contact your Audi partner for information on other compatible MP3 players. (In conjunction with the Audi music interface, the AUX-IN connection is omitted)
Adapter cable set for Audi music interface , consisting of 2 connection cables for the connection of iPod/iPhone or data carrier/media player with USB connection (Type A); further adapter cables available from Audi Genuine Accessories

Telephone and communication
Bluetooth interface , Bluetooth-compatible mobile telephones can be connected to the vehicle via the interface. Hands-free calls are possible in the vehicle via the microphone. (Cannot be ordered with chorus radio)
Mobile phone fitting (Bluetooth) , comprises a hands-free facility and fitting for optional mobile-specific charger; operation via MMI navigation plus, MMI navigation, concert radio, symphony radio or leather-covered multifunction wheel; please contact your Audi partner for adapters and information about compatible mobile phones. (Can only be ordered in conjunction with leather-covered multifunction steering wheel and a navigation system or a concert or symphony radio)
Mobile phone fitting (Bluetooth) in the front centre armrest , equipment as for mobile phone fitting (Bluetooth), fitting for optional mobile-specific charger in the centre armrest at the front. (Can only be ordered in conjunction with leather-covered multifunction steering wheel and a navigation system or a concert or symphony radio)
Bluetooth car phone , your Bluetooth-capable mobile phone can be conveniently connected to the GSM module inside the vehicle (provided that your mobile has SIM Access Profile), additional SIM card reader located in the surround of the MMI navigation/MMI navigation plus. Transfer of phone book entries to the vehicle and management of call lists; simple operation using MMI navigation/MMI navigation plus or leather-covered multifunction steering wheel. (Can only be ordered in conjunction with MMI navigation or MMI navigation plus)
Bluetooth car phone with wireless handset , in addition to the Bluetooth car phone the set includes a handset with colour display and integrated SIM card reader, for discreet phone calls; easy writing of text messages thanks to automatic word recognition. Handset is stored in the centre armrest, front. (Can only be ordered in conjunction with front centre armrest)
Assistance systems
adaptive cruise control , automatic speed and distance regulation; working within system limits, it assists with detecting and maintaining the distance from the vehicle in front by braking and accelerating. (Cannot be ordered with chorus radio)
Audi side assist , lane changing assistant, working within system limits at speeds of 30 km/h and above, the system uses radar technology to monitor the area on the left, right and behind the moving vehicle and informs or warns the driver by means of an LED display in the exterior mirror if the Audi side assist has detected another vehicle assessed as critical for lane-changing. (Cannot be ordered with chorus radio)
Audi lane assist , lane compliance assistant, working within system limits, the system creates a virtual driving lane using a front camera and steering angle sensor. If there is a danger of the vehicle leaving this lane, and the indicator has not been actuated, the driver is informed in the form of steering wheel vibrations. (The grey-coloured strip along the windscreen is omitted; can only be ordered in conjunction with light/rain sensor and leather-covered multifunction steering wheel, not in conjunction with chorus radio)
Hold assist (not for models with start-stop system) holds the vehicle stationary for unlimited periods after stopping, including on uphill and downhill gradients. The system is activated by push-button and allows the driver to drive away smoothly without having to operate the handbrake

Parking system, rear , makes reverse parking easier by indicating acoustically how far away the vehicle is from a detected object; measurement is by ultrasonic sensors concealed in the bumper
Parking system plus , acoustic and visual parking aid for front and rear, with display in MMI screen
Parking system plus with reversing camera , acoustic and visual parking aid for front and rear, image of area behind the vehicle shown on the MMI display, with 2 dynamic display modes for the calculated direction of travel, depending on the steering angle; includes help lines and guidelines; reversing camera concealed in the luggage compartment lid handle strip. (Can only be ordered in conjunction with a MMI navigation system)
Cruise control system – at speeds of 30 km/h and above, the system keeps the set speed constant, provided that engine power and engine braking effect permit it; also features active braking intervention, e.g. when driving downhill; operated via separate steering wheel control stalk; set speed displayed in the central display

Suspension/brakes

Audi drive select , vehicle settings can be changed by selecting one of 3 modes (comfort, auto and dynamic), or an additional individual mode can be set up using MMI navigation system. (Can only be ordered with dynamic steering and/or suspension with damper regulation and/or quattro® with sports differential)
Dynamic steering – when cornering, changing lanes or parking, this system improves comfort and handling by dynamically regulating steering according to the driving situation. In addition to adaptation of the steering effort (as with servotronic), the steering angle is also adapted (steering ratio). The system is also supported further by vehicle stabilisation through ESP. (Can only be ordered in conjunction with Audi drive select)
Suspension with damper regulation , electronically controlled adaptation to different driving situations; dynamic or comfort-oriented characteristic of the damper coordination can be adapted over Audi drive select. (Can only be ordered in conjunction with Audi drive select)
Dynamic suspension providing outstanding handling and exceptional levels of comfort with 5-link lightweight front axle with virtual steering axis, tubular anti-roll bar; trapezoidal-link rear axle with independent wheel suspension; twin-tube gas-filled shock absorbers and coil springs, auxiliary rebound springs, flexibly mounted subframe at rear, at front rigidly bolted to vehicle body
Sports suspension with stiffer spring and damper tuning for more direct contact with the road and sporty handling; includes suspension brace
S line sports suspension with more dynamic suspension tuning and vehicle lowered by 10 mm
Braking system , dual-circuit, diagonally-split braking system, anti-lock system (ABS) with electronic brake force distribution (EBD), Electronic Stabilization Programme (ESP) with brake assist, tandem brake booster, disc brakes front/rear, ventilated at front
Electromechanical parking brake , includes parking brake function when stationary, drive-off assistance function by means of automatic release when driving away and emergency braking function whilst driving by means of action on all 4 wheels

Technology/safety
Body , galvanised (fully-galvanised in areas at risk from corrosion), unit construction, welded to the floor pan, front and rear areas feature defined crumple zones, aluminium front wings. (12 year warranty against rust perforation)
Rollover protection, active , automatically-triggered protective system behind the rear head restraints
Airbags , full-size airbag for driver and front passenger with seat position recognition
Side airbags at the front , to supplement side impact protection in the doors (head/thorax airbag)
Integrated head restraint system , in the event of a rear-end collision, the design of the seats stabilises the upper torso and provides improved head support. This increases the level of protection and reduces the risk of a whiplash injury
Steering column lock , electric
Instrument cluster , with adjustable lighting, electronic speedometer with odometer and trip odometer, rev counter and automatic ready-check when engine starts, clock, coolant temperature display and fuel gauge
Safety steering column , includes a shunt mechanism with damping function, to supplement the protection offered by the seatbelts and airbags
Seat belts , 3-point inertia-reel seat belts for all 4 seats; colour-coordinated with the interior, with seat belt reminder function and belt force limiters at the front and belt tensioners at the front and rear
Automatic belt provider , with 2 positions for people of different heights. The belt is automatically moved forward upon activation of the ignition and moved back again after the seat belt has been fastened
Warning triangle , with bracket on the inside of the luggage compartment lid
First-aid kit , in the storage compartment under the driver's seat
Traction control (ASR) , for good traction, reduces spinning of the drive wheels
Electronic Differential Lock (EDL) , on surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on the surface that is too slippery, thereby ensuring smooth, powerful progress; operates at speeds up to approx. 100 km/h
Electronic Stabilization Programme (ESP) , networks the ABS, EBD, ASR and EDL with its own sensors and compares the driving data with reference data; improves stability at all speeds by targeted braking of individual wheels and intervention in the engine management system
ESP with electronic cross-axle lock , the electronic cross-axle lock is incorporated in the ESP for models with front wheel drive. It distributes the drive torque by means of targeted braking actions in accordance with the driving situation. When cornering, the cross-axle lock actively counteracts understeer. The result is improved traction and dynamic performance when cornering and more precise handling. Agility during steering is also improved

Power steering provides steering assistance whilst driving and makes parking easier. (Standard for 1.8 TFSI, 2.0 TFSI with 132 kW and 2.0 TDI)
servotronic , speed-sensitive power steering (standard from 140 kW)
Manual transmission , 6-speed, all-synchromesh, hydraulically-actuated dry clutch with asbestos-free linings, twin-mass flywheel
multitronic (for models with front-wheel drive), the multitronic generation of continuously variable transmissions, featuring dynamic gear control program (DCP) and sport program; 8 different gears can be selected in manual mode; hydraulically controlled multi-plate clutch
S tronic (for models with quattro® permanent all-wheel drive), the 7-speed dual clutch transmission with electrohydraulic actuation facilitates shorter gearshift times and gearshifting with hardly any perceptible break in propulsive power: can be operated via the shift paddles behind the steering wheel (optional) or the selector lever; in automatic mode the driver can choose between the programs D (normal) and S (sports)
quattro® , permanent all-wheel drive with asymmetric/dynamic torque distribution, self-locking centre differential, electronic differential lock (EDL) via braking intervention on all driven wheels
quattro® with sports differential , the electronically regulated sports differential distributes variable amounts of driving force to each rear wheel. The sports differential can provide different amounts of torque at each rear wheel in almost any driving situation, ensures agile handling and outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also ensures better direct steering characteristics and, thanks to less steering effort, more agile handling. (Available for the 3.2 FSI quattro and 3.0 TDI quattro, can only be ordered in conjunction with Audi drive select)
Recuperation , increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is used to assist the generator during subsequent acceleration, saving up to 3 % fuel
Start-stop system reduces fuel consumption and CO ₂ emissions by switching off the engine when standing, e.g. at traffic lights. For optimum restarting, the starting process is initiated as soon as the driver presses the clutch pedal and the engine is already up to idling speed by the time a gear is selected. (Only for 2.0 TDI and 2.0 TFSI with 6-speed manual transmission)
Misfuelling protection mechanically prevents that diesel vehicles are mistakenly filled up with petrol

Audi extended warranty
Audi extended warranty can only be ordered directly and on purchase of a new car; is a consistent continuation of the manufacturer's guarantee so that you are protected against risk and can control servicing costs even after the first 2 years. There is a total of 9 lifetime/total mileage combinations to choose from:
Additional 1 year Audi extended warranty, maximum total mileage 30,000 km
Additional 1 year Audi extended warranty, maximum total mileage 60,000 km
Additional 1 year Audi extended warranty, maximum total mileage 90,000 km
Additional 2 years Audi extended warranty, maximum total mileage 40,000 km
Additional 2 years Audi extended warranty, maximum total mileage 80,000 km
Additional 2 years Audi extended warranty, maximum total mileage 120,000 km
Additional 3 years Audi extended warranty, maximum total mileage 50,000 km
Additional 3 years Audi extended warranty, maximum total mileage 100,000 km
Additional 3 years Audi extended warranty, maximum total mileage 150,000 km

Equipment for the A5 Cabriolet illustrated (p. 4–33):
Paintwork: Aurum Beige, metallic; wheels: cast aluminium wheels, 15-spoke star design;
Seat covers: Fine Nappa leather, black; inlays: Aluminium hologram

Equipment for the A5 Cabriolet illustrated (p. 6–32):
Paintwork: Teak Brown, metallic; wheels: cast aluminium wheels, 5-arm Y design;
Seat covers: Milano leather perforated, cardamom beige; inlays: Laurel nutmeg

Model	A5 Cabriolet 3.0 TDI quattro with diesel particulate filter	
Engine type	V6 diesel engine with common rail injection system and exhaust gas turbocharging	
Displacement in cc (valves per cylinder)	2967 (4)	
Max. output¹ in kW at rpm	176/4000–4400	
Max. torque in Nm at rpm	500/1500–3000	
Power transmission/wheels		
Type of drive	quattro® permanent all-wheel drive	
Transmission	[7-speed S tronic]	
Wheels	Lightweight forged aluminium wheels, 7.5 J x 17	
Tyres	225/50 R 17	
Weights/capacities		
Unladen weight² in kg	[1935]	
Gross vehicle weight in kg	[2360]	
Roof load/trailer nose weight in kg	80	
Trailer load limit³ in kg	unbraked	[750]
	12 % gradient	[1900]
	8 % gradient	[2100]
Fuel tank capacity, approx. in l	64	
Performance/consumption⁴		
Top speed in km/h	[247]	
Acceleration 0–100 km/h in s	[6.4]	
Fuel grade	Sulphur-free diesel ⁷	
Fuel consumption⁶ in l/100 km	urban	[8.5]
	extra-urban	[5.8]
	combined	[6.8]
CO₂ emissions⁶ in g/km	urban	[224]
	extra-urban	[153]
	combined	[179]
Emissions standard	EU5	

[] Data for S tronic.

Notes

- The figure given has been calculated in accordance with the specified measuring procedure (current version of Directive 80/1269/EEC).
- Weight of car, unladen, with driver (68 kg), luggage (7 kg) and with fuel tank filled to 90 %, calculated in accordance with the current version of EC Directive 92/21/EEC. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- The engine's power output always goes down with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.
- A vehicle's fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.
- We recommend using sulphur-free super unleaded RON 95 in accordance with DIN EN 228. If not available, use sulphur-free regular unleaded RON 91 in accordance with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel in accordance with 692/2008/EC.
- The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.
- We recommend using sulphur-free diesel in accordance with DIN EN 590. If not available, diesel in accordance with DIN EN 590.

Important note

Inspections are due as shown by the service display.

Audi A5 Cabriolet

Dimensions in millimetres.

Dimensions were measured with vehicle at unladen weight.
Luggage compartment volume 320 l with open hood, 380 l with closed hood, 750 l with the rear seat back folded down (measured by the VDA method, using 200 x 100 x 50 mm blocks).
Turning circle approx. 11.4 m.

*Maximum headroom. **Elbow room width. ***Shoulder room width.

At Audi, you get much more than just an Audi.

Anyone who chooses an Audi chooses a brand that offers its customers more. More individuality. More exclusivity. And more fascination.

www.audi.com

Vorsprung durch Technik, and everything that it entails: the legendary Audi history, dates of unforgettable events and ground-breaking innovations – let your fascination grow with the Audi brand.
