**THIS EQUIPMENT IS NOT DESIGNED FOR MAKING EMERGENCY TELEPHONE CALLS WHEN THE POWER FAILS. ALTERNATIVE ARRANGEMENTS SHOULD BE MADE FOR ACCESS TO DIAL EMERGENCY SERVICES.**

Before operating this set,
please read these instructions carefully.

---

## TECHNICAL DETAILS

| | |
|---|---|
| Standard | Digital Enhanced Cordless Telecommunication (DECT) |
| Frequency range | 1.88 to 1.9GHz (bandwidth = 20 MHz) |
| Channel bandwidth | 1.728 MHz |
| Operating range | Up to 300m outdoors; up to 50m indoors |
| Operating time | Standby: 100 hours, Talking :10 hours Battery charge time:15 hours |
| Temperature range | Operating 0°C to 40°C, Storage -20°C to 60°C |

**Electrical power**
Base unit:
HONR – ADS-3V-06 06018 GPB / ADS-3V-06 06018 GPG
input 100-240VAC 50/60Hz 100mA, output 6VDC 300mA
TenPao - S002CV0600030 / S002CB0600030
input 100-240VAC 50/60Hz 100mA, output 6VDC 300mA
Charger unit:
HONR – ADS-3V-06 06018 GPB / ADS-3V-06 06018 GPG
input 100-240VAC 50/60Hz 100mA, output 6VDC 300mA
TenPao– S002CV0600030 / S002CB0600030
input 100-240VAC 50/60Hz 100mA, output 6VDC 300mA
Battery Information
GPI – VTHC043C02, Type NiMH (Rechargeable battery)
Voltage Rating 400mAh 2.4V AAA Size Pack
BYD- H-AAA400BX2, Type NiMH (Rechargeable battery)
Voltage Rating 400mAh 2.4V AAA Size Pack
CORUN- Ni-MHAAA400\*2, Type NiMH (Rechargeable battery)
Voltage Rating 400mAh 2.4V AAA Size Pack

**Caution**
Risk of explosion if battery is replaced by an incorrect type
Dispose of used batteries according to the instructions.

**Port specification** The ⬛ port (connected to the mains power supply) is a SELV port with respect to EN41003.
The ⬛ port (connected to the telephone line) is a TNV port with respect to EN41003.

**CLEANING AND CARE**
**Do not clean** any part of your Lifestyle 1910 system with benzene, thinners or other solvent chemicals - this may cause permanent damage which is not covered by the Guarantee.
**When necessary, clean it with** a damp cloth.
Keep your Lifestyle 1910 system away from **hot, humid conditions** or **strong sunlight,** and **don't let it get wet**.
Every effort has been made to ensure high standards of reliability for your Lifestyle 1910 system. However, if something does go wrong, please **do not try to repair it yourself,** consult your supplier or the Helpline.

## TABLE OF CONTENTS

---

## 1 IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1) Read and understand all the instructions.
2) Follow all warnings and instructions marked on the product.
3) Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
4) Keep your Lifestyle 1910 away from hot, humid conditions or strong sunlight, and don't let it get wet or use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
5) Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
6) Unplug this product from the wall outlet and refer servicing to our Repair Centre under the following conditions:
   • When the power supply cord or plug is damaged or frayed.
   • If the product does not operate normally by following the operating instructions.
   • If the product has been dropped and the cabinet has been damaged.
   • If the product exhibits a distinct change in performance.
7) NEVER use your Lifestyle 1910 outdoors during a thunderstorm-unplug the base from the telephone line and the mains socket when there are storms in your area. Damage caused by lightning is not covered by the guarantee.
8) Do not use the telephone to report a gas leak in the vicinity of the leak.
9) Use only the supplied NiMH (Nickel Metal Hydride) batteries! The operation periods for the handsets are only applicable with the default battery capacities
10) The use of other battery types or non-rechargeable batteries/primary cells can be dangerous. These may cause interference and/or damage to the unit or surroundings. The manufacturer will not be held liable for damage arising from such non-compliance.
11) Do not use third party charging bays. Damage may be caused to the batteries.
12) Please ensure the battery is inserted correctly into the socket.
13) Dispose of batteries safely. Do not immerse them in water, burn them, or put them where they could get punctured.

**Package contents**
The package contains the following items:
• 1 Handset
• 1 Base station
• 1 Mains power adapter
• 1 Telephone line cord
• 1 rechargeable battery pack
• 1 User manual

Note: If you have a Twin, Triple or Quad system, you will also have the requisite extra handset(s) and batteries, and a charger pod for each extra handset.

To use your handset and base together, you must be able to establish a radio link between them. The signal between the handset and the base is in accordance with the normal standards for a DECT phone: Maximum range up to 300 metres outdoors or 50 metres indoors.
The signal range may decrease if there is any large metal object between the handset and the base, such as a refrigerator, a mirror, a filing cabinet, metallic doors or reinforced concrete. The signal strength may also be reduced by other solid structures like walls, or by other radio or electrical interference.

---

## 2 INSTALLING YOUR PHONE

### 2.1 Connecting the base station

1) Plug the power supply 🔌 and line cord 📞 into the base station.
2) Plug the power adapter into a 230Vac, 50Hz mains socket and the line cord into your telephone line socket.
3) Always use the cables provided in the box
**Warning:** Use only the provided adaptor, using other power supplies may cause a hazard.
Warning: Install the base unit in a position where the mains adaptor plug will reach an easily accessible mains socket. Never try to lengthen the mains power cable.
Note: The base unit needs mains power for normal operation, not just for charging the handset batteries.

### 2.2 Installing and charging the batteries

1) Place the supplied battery pack into the battery compartment with the plug inserted correctly into the socket.
Use only the NiMH rechargeable battery type provided.
2) Position the battery compartment cover over the batteries and slide up to click into place.
3) Put the handset on the base and charge for 16 hours before using the handset for the first time. The handset will give a beep when it is properly placed on the base or charger.

**If you have a Broadband line**
If you connect your telephone to a line with a broadband connection, you will need to insert a micro-filter between the telephone and the telephone line, otherwise you may get interference between the telephone and the broadband, which could cause problems.
In a home with broadband, every telephone must have a micro-filter connected, not just the one at the telephone point that your modem is connected to. If you need more broadband micro-filters, contact your broadband supplier.

## 3 GETTING TO KNOW YOUR PHONE

### 3.1 Handset Overview

**UP ▲ 📞**
In idle mode:
Press to access the call list
In menu mode:
Press to scroll up the menu items
In Phonebook list / Redial list / Call List:
Press to scroll up the list
During ringing:
Press to increase the ringer volume

**MENU/OK 📖 OK**
In idle mode:Press to access the main menu
In sub-menu mode:
Press to confirm the selection
Press to access Intercom/Phonebook/ Redial List/ Call List

**TALK ON 📞**
In idle / predialing mode:
Press to make a call
In Redial list / Call List /
Phonebook list:
Press to make a call to the displayed entry in the list
During ringing:
Press to answer a call

**SPEAKERPHONE ◀)))**
During a call:
Press to switch on /off the speakerphone
Call List / Phonebook entry:
Press to make a call with speakerphone
During ringing:
Press to answer a call with speakerphone
During answering machine message playback /
call screening:
Press to play message via speaker

**CLEAR/MUTE/INTERCOM ⌫/🔇**
In Intel menu mode: Press to go back to idle screen
In sub-menu mode: Press to go back to previous level
In sub-menu mode: Press and hold to go back to idle screen
In editing / predialing mode: Press to clear a character / digit
In editing / predialing mode:
Press and hold to delete all the characters / digits
During a call: Press to mute/ unmute the microphone
In idle mode:Press to intercom another handset

**TALK OFF 📵**
In idle:Press to end a call and go back to idle screen
In menu / editing mode: Press to go back to previous menu
In idle mode:
Press and hold to power off the handset
(Note: if the handset is powered off, put it on charge on the base or a charger pod to turn it back on.)

**DOWN ▼ 🔊**
In idle mode:
Press to access the redial list
In menu mode:
Press to scroll down the menu items
In Phonebook list / Redial list / Call List:
Press to scroll down the list
During ringing:
Press to decrease the ringer volume
During a call:
Press to decrease the earpiece volume
During ringing:
Press to decrease the ringer volume

**DELETE 🗑**
Press once to delete the current message during playback
In idle:Press and hold to delete all old voice messages.
Note: New voice messages will not be deleted.

Indicates when the battery needs charging.
Flashes when low battery power level is detected.
◀ Indicates when there are more characters or numbers in front of those being displayed.
▶ Indicates when there are more characters or numbers after those being displayed.
**OK** Press the MENU/OK key to access the main menu.
**OK** Press the MENU/OK key to confirm the current selection.
★ Indicates new TAM message / new call in TAM message list / call list.
🔁 Press the C/MUTE key to start an intercom call.
🔁(BACK) Press the C/MUTE key to go back to the previous menu level or cancel the current action.
🔇 Press the C/MUTE key to clear a character, stop the alarm, or mute/unmute the microphone during a call.

### 3.4 Menu Structure

In idle mode, press <MENU/OK> to go to CALL LIST, the first option in the menu list.
Press <UP> or <DOWN> to go to other options in the menu list.
Press <OK> to enter a sub-menu or function.
Press <Back> to go back to the previous level.
Refer to the following for the menu structure.

---

### 3.5 Text and Digit Entry Table

The following table shows you where each letter and punctuation character can be found, by using repeated presses of the alphanumeric keypad. This will be helpful when storing a name in the phonebook and renaming your handset.
In editing mode, a cursor is displayed to indicate the current text entry position. It is positioned at the right of the last character entered.

**Writing Tips:**
1. Once a character is selected, the cursor will move to the next position after a short pause.
2. You can move the cursor within the text with the <UP/DOWN> keys to amend the text entry.
3. Press <C> to delete the last character.
4. Press and hold <C> to delete the entire text string.

#### 3.5.1 Character Set

| Key Press | Alphanumeric Editing (For phonebook name editing and renaming handset) | | | | | | | | | Number Editing (For phone number editing, date/time editing) |
|---|---|---|---|---|---|---|---|---|---|---|
| | 1st | 2nd | 3rd | 4th | 5th | 6th | 7th | 8th | 9th | 10th | |
| 1 | space | 1 | | | | | | | | 1 |
| 2 | A | B | C | 2 | | | | | | 2 |
| 3 | D | E | F | 3 | | | | | | 3 |
| 4 | G | H | I | 4 | | | | | | 4 |
| 5 | J | K | L | 5 | | | | | | 5 |
| 6 | M | N | O | 6 | | | | | | 6 |
| 7 | P | Q | R | S | 7 | | | | | 7 |
| 8 | T | U | V | 8 | | | | | | 8 |
| 9 | W | X | Y | Z | 9 | | | | | 9 |
| 0 | 0 | | | | | | | | | 0 (For Pause) if press and hold |

Note: There are some different characters if the handset language is changed (page 21).

---

## 4 USING YOUR PHONE

### 4.1 Make a Call

Enter the phone number and press <TALK ON> or <SPEAKERPHONE> to connect to the line and to dial the number. When entering the number, if you make a mistake, press <C> to delete digits.

#### 4.1.2 Direct Dialling
Press <TALK ON> or <SPEAKERPHONE> to connect to the line and then enter the phone number.
(Note: if you enter a wrong digit you cannot correct it with the <C> key.)

#### 4.1.3 Call from the phonebook
Press <MENU/OK>, then <DOWN>, then <MENU/OK> again to access the phonebook and press <UP/DOWN> to select the desired phonebook entry. Press <TALK ON> or <SPEAKERPHONE> to dial out the selected phonebook entry.
**Note:** The alphanumeric keys provide a short-cut to find entries beginning with the corresponding letters.

#### 4.1.4 Call from the Call List (only available with Caller Display)
Press <UP> to access the Call List and press <UP/DOWN> to select the desired Call List entry.
Press <TALK ON> or <SPEAKERPHONE> to dial out the selected Call List entry.
**Note:** You can also access the Call List by pressing <MENU/OK> twice.

#### 4.1.5 Call from the redial list
Press <DOWN> to access the redial list and press <UP/DOWN> to select the desired redial number.
Press <TALK ON> or <SPEAKERPHONE> to dial out the selected redial number.

#### 4.1.6 Call timer
Your handset automatically times the duration of every call.
The call timer is displayed as soon as you answer a call or 15 seconds after dialling and remains on screen for 5 seconds after the end of the call.
It is shown in hours, minutes and seconds format (HH:MM:SS).

### 4.2 Answer a Call
If the handset is not on the charging cradle:
When the phone rings, press <TALK ON> or <SPEAKERPHONE> to answer a call.
**Note:** If AUTO ANSWER is set to ON, then lifting the handset off the base or charger will answer the call automatically, and no buttons need to be pressed.

---

### 4.3 End a Call
During a call press <TALK OFF> to end the call.
OR
Put the handset on the base station or charger to end the call.

### 4.4 Adjust Volume
There are 5 levels (VOLUME 1 to VOLUME 5) to choose from for the earpiece or speakerphone volume.
During a call:
Press <UP/DOWN> to select volume 1-5. The current setting is shown.
When you end the call, the setting will be stored.

### 4.5 Mute a Call
You can talk to someone nearby without letting the caller hear you during a call.
During a call:
Press <C> to mute the microphone and "**MUTED**" will display on the LCD. Your caller cannot hear you. Press <C> again to unmute the microphone.

### 4.6 Turn off the Handset Ringer
In idle, press and hold <HASH#> to turn off the handset ringer. The "RINGER OFF" icon is displayed on the LCD.
**Note:** The display will still flash the Call Icon and show CALL or the Caller Display number, when there is an incoming call, even if the ringer is turned off
To turn the ringer back on, press and hold <HASH#> again.

### 4.7 Turn on the Keypad Lock
In idle, press and hold <STAR\*> to turn on the keypad lock. The LOCK" icon is displayed on the LCD.
**Note:** You can still use <TALK ON> or <SPEAKERPHONE> to answer a call when the handset is ringing.
To turn the keypad lock off, press and hold <STAR\*> again.

### 4.8 Redial the last number
You can redial any of the 5 last numbers called. If you have stored a name in the phonebook to go with the number, the name will be displayed instead.
The most recent last number will display at the top of the redial list.

#### 4.8.1 Redial a Number from the Redial List
1. In idle mode, press <DOWN> to access the redial list.
**Note:** if the redial list entry shows a name, press <Hash#> to view the number of this entry.
2. Press <UP/DOWN> to browse the redial list.
3. Press <TALK ON> or <SPEAKERPHONE> to dial to the selected redial number.
**Note:** If there are no numbers in the redial list, the display shows "**EMPTY**".

---

#### 4.8.2 Store a Redial Number into the Phonebook
1. Follow Steps 1 and 2 in section 4.8.1.
2. Press <MENU> and <UP/DOWN> to select **ADD TO PB.**
3. Press <OK> and then enter the name you want to use in the phonebook.
4. Press <OK> and then modify the number, if necessary.
5. Press <OK> to show <MELODY 1>.
6. Press <UP/DOWN> to browse the ringtone list. The respective ringtone will be played when browsing the ringtone list. (Note: the selected melody will only be played if you subscribe to Caller Display and the incoming number matches the stored number.)
7. Press <OK> to confirm, and the entry will be stored.

#### 4.8.3 Delete a Redial Number
1. Follow Steps 1 and 2 in section 4.8.1.
2. Press <MENU> and <UP/DOWN> to select **DELETE.**
3. Press <OK> to confirm, and the entry will be deleted.

#### 4.8.4 Delete all Redial List entries
1. In idle mode, press <DOWN> to access the redial list.
2. Press <MENU> and <UP/DOWN> to select **DELETE ALL.**
3. Press <OK> to show <CONFIRM?>.
4. Press <OK> to confirm. All entries will be deleted and the display will show <EMPTY>.

### 4.9 Find the Handset
You can locate the handset by pressing <PAGE> on the base station. All the handsets registered to the base will produce the paging tone and show "PAGING" on the display. You can stop the paging by pressing <TALKON>/<TALK OFF> /<C> on any handset or <PAGE> on the base again.
**Note:** If there is an incoming call during paging, the phone will ring with the incoming call instead of paging.

### 4.10 Make an Internal Call (For multi-handset versions only)
This feature is only applicable when there are at least two registered handsets. It allows you to make internal calls, transfer external calls from one handset to another handset and make conference calls. If the called handset is not answered within 60 seconds, the called handset will stop ringing and the calling handset will return to standby mode.
**Note:** If only one handset is registered to the base station, when <C/MUTE/INT> is pressed, it will display "**NOT POSSIBLE**".

---

#### 4.10.1 Intercom Another Handset
1. In idle mode, press <C/MUTE/INT> and all the other registered handset numbers will display, along with a "9".
2. Enter the number of the handset that you want to call, or enter "9" to call all handsets.
3. The called handset rings and <TALK ON> or <SPEAKERPHONE> must be pressed on that handset to establish the intercom call.
**Note:** if two handsets are registered to the base station, pressing <C/MUTE/INT> will call the other handset immediately.
Note: if there is an external call while you are on an intercom call, you'll hear warning beeps, and you have to end the intercom call, before you can answer the external call.

#### 4.10.2 Call All Handsets
1. In idle mode, press <C/MUTE/INT> and the registered handsets will display.
2. Press digit key <9> to ring to all registered handsets

#### 4.10.3 Transfer an External Call to another handset
During an external call:
1. Press <MENU> and <UP/DOWN> to select **INTERCOM.**
2. Press <OK> to show all the other registered handset numbers, plus "9". Enter the number for the handset you want to transfer the call to.
3. The external call is put on hold automatically and the called handset rings.
4. Press <TALK ON> or <SPEAKERPHONE> on the called handset to establish an internal call.
5. Press <TALK OFF> on the calling handset or put the calling handset on the charging cradle to end the current call with the external party.
6. The external call is transferred to the called handset.
Note: If the other handset has not answered the intercom call, you can stop the intercom and return to the external call by pressing <TALK OFF>

#### 4.10.4 Make a 3-way Conference Call
The conference call feature allows one external call to be shared with two handsets (in intercom).
The three parties can share the conversation and no additional network subscription is required.
During an external call:
1. Follow Steps 1 to 4 in section 4.10.3.
2. Press and hold <STAR\*> on the calling handset to establish the conference call
Either handset can exit the conference by pressing <TALK OFF>, leaving the other handset still connected to the external call.

---

## 5 PRIVATE PHONEBOOK

Each handset can store up to 20 private phonebook entries with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 12 characters for the name. You can also select different ringtones for your phonebook entries. (Note: the different ringtones only play if you subscribe to Caller Display and the incoming number matches the stored number.) Phonebook entries are stored alphabetically by name.

### 5.1 Add a New Phonebook Entry
In idle:
1. Press <MENU> then <UP/DOWN> to select **PHONEBOOK** and then press <OK> to access the phonebook.
2. Press <MENU> to show ADD.
3. Press <OK> and then enter the name.
4. Press <OK> and then enter the number.
5. Press <OK> and <UP/DOWN> to select the desired ringtone for your phonebook entry.
6. Press <OK> to store the phonebook entry.

### 5.2 Search a Phonebook Entry
In idle:
1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Enter the first letter of the name using the alphanumeric keys(e.g. if it begins with C, press the 2 key three times),
and then <UP/DOWN> to scroll to the entry you want.

### 5.3 View a Phonebook Entry
In idle:
1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Press <UP/DOWN> to select the desired phonebook entry.
3. Press <MENU> and <UP/DOWN> to select **VIEW.**
4. Press <OK> and <UP/DOWN> to review the name, number and ringtone of the selected phonebook entry.
**Note:** If the number is more than 12 digits, press <LEFT SOFT KEY> or <RIGHT SOFT KEY> to view the remaining digits.

---

# Binatone

## 5.4 Edit a Phonebook Entry

In idle:
1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Press <UP/DOWN> to select the desired phonebook entry.
3. Press <MENU> and <UP/DOWN> to select EDIT.
4. Press <OK> to display the current name.
5. Edit the name and press <OK>.
6. Edit the number and press <OK>.
7. Press <UP/DOWN> to select the ringtone and press <OK> to confirm.

## 5.5 Delete a Phonebook Entry

In idle:
1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Press <UP/DOWN> to select the desired phonebook entry.
3. Press <MENU> and <UP/DOWN> to select DELETE.
4. Press <OK> to confirm, and the entry will be deleted.

## 5.6 Delete all Phonebook entries

1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Press <MENU> and <UP/DOWN> to select DELETE ALL.
3. Press <OK> to display <CONFIRM?>.
4. Press <OK> to confirm. All entries will be deleted and the display will show <EMPTY>.

## 5.7 Check the Phonebook Usage

You can check how many phonebook entries are stored in your handset and how many phonebook entries are available for you to store in the phonebook.
1. Press <MENU> then <UP/DOWN> to select PHONEBOOK and then press <OK> to access the phonebook.
2. Press <MENU> and <UP/DOWN> to select PB STATUS.
3. Press <OK> to display how much of the phonebook is being used, for example < 6/ 20 USED> means 6 entries are stored out of the total 20 available spaces.

17

---

## 6 CALLER DISPLAY (NETWORK DEPENDENT)

This feature is available if you have subscribed to the Calling Line Identification service with your network service provider. Your phone can store up to 10 received calls with date/time information in the Call List. The number will be shown on the handset display when the phone is ringing. If the number matches with one of the entries in your Private Phonebook, the caller's name stored in the private phonebook will be displayed alternately with the number, and the handset will ring with the ringtone associated with that phonebook entry.
If the call is from someone who withheld their number, e.g. by dialling 141, "WITHHELD" will display.
If the call is from someone whose number is unavailable, e.g. an international call or from a private exchange, "OUT OF AREA" will display.
If you've got new Caller Display records, the handset will display "X NEW CALLS" in standby mode. The New Calls indication will remain until all the new call records have been viewed on that handset.

### 6.1 View the Call List

All received calls are saved in the Call List, with the latest call at the top of the list. When the call list is full, the oldest call will be replaced by a new call. Any unanswered calls which have not been viewed are marked with a <*> icon at the centre of the bottom line of the display.
1. Press <UP> to access the call list.
OR Press <MENU> and <UP/DOWN> to show CALL LIST, then press OK.
2. Press <UP/DOWN> to select the desired entry.
3. Press <#> to view the caller's number if applicable.
4. Press <MENU>, <UP/DOWN> to show DETAILS, and then <OK> to display the date and time of the call. Press <OK> to go back to the previous screen.

### 6.2 Store a Call List Number into the Phonebook

1. Follow Steps 1 and 2 in Section 6.1.
2. Press <MENU> and <UP/DOWN> to show ADD TO PB.
3. Press <OK> and then enter the name.
4. Press <OK> and the selected call list number is displayed.
5. Edit the number if necessary.
6. Press <OK> and <UP/DOWN> to select the ringtone.
7. Press <OK> to store the phonebook entry and return to the calls list.

### 6.3 Delete an entry in the Call List

1. Follow Steps 1 and 2 in Section 6.1.
2. Press <MENU> and <UP/DOWN> to select DELETE.
3. Press <OK> to confirm.

### 6.4 Delete all Call list entries

1. Follow Steps 1 and 2 in Section 6.1

18

---

2. Press <MENU> and <UP/DOWN> to select DELETE ALL .
3. Press <OK> to display CONFIRM?.
4. Press <OK> to confirm. All entries will be deleted and the display will show EMPTY.

## 7 PHONE SETTINGS

Your phone comes with a selection of settings that you can change to personalise your phone the way you like it to work.

### 7.1 Date and Time Settings

If you subscribe to Caller Display the time and date settings will be automatically updated by the network when you receive an incoming call.
The Caller Display service only sends the month and date, not the year, so you may need to set the year.

#### 7.1.1 Change the Date Format
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DATE & TIME.
3. Press <OK> and <UP/DOWN> to select DATE FORMAT.
4. Press <OK> and <UP/DOWN> to select your desired date format (DD-MM-YY or MM-DD-YY).
5. Press <OK> to confirm.

#### 7.1.2 Change the Time Format
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DATE & TIME.
3. Press <OK> and <UP/DOWN> to select TIME FORMAT.
4. Press <OK> and <UP/DOWN> to select your desired time format (12 HR or 24 HR).
5. Press <OK> to confirm.
Note: If time has been set before, the current time will display, otherwise, "HH:MM" will display.

#### 7.1.3 Set the Time
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DATE & TIME.
3. Press <OK> and <UP/DOWN> to select SET TIME.
4. Press <OK> and then enter the time information in 24 hour format.
5. Press <OK> to confirm.
Note: If time has been set before, the current time will display, otherwise, "HH:MM" will display.

#### 7.1.4 Set the Date
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DATE & TIME.
3. Press <OK> and <UP/DOWN> to select SET DATE.
4. Press <OK> and then enter the date information. The date entered will be in the format you set in Section 7.1.1.
5. Press <OK> to confirm.
Note: If date has been set before, the current date will display, otherwise, "DD-MM-YY" will display.

19

---

## 7.2 Alarm Settings

You can set an alarm time on the handset. When an alarm is set, the <ALARM Icon> is shown on the handset display. When the alarm time is reached, the <ALARM icon> and "ALARM ON" flash on the handset display, and the alarm tone rings for 45 seconds. You can press any key to disable the alarm. If the snooze function is activated, the alarm will sound again at the end of the snooze period of seven minutes. You can also press and hold <TALK OFF> while the alarm is sounding, to stop the alarm and turn off the snooze function.

Note:
a. A key press will still disable the alarm even if the handset keypad is locked when the alarm rings.
b. The alarm volume level is the same as the settings of the handset ringer volume. If the handset ringer is set to VOLUME OFF, the alarm still sounds at VOLUME 1 level.
c. During an external call or internal call, if an alarm is set and when the alarm time is reached, the <ALARM icon> and "ALARM ON" will still flash. An alarm tone will be emitted from the earpiece to alert the user the alarm time is reached. Once the user presses any key or presses and holds <TALK OFF> to disable the alarm, the display will revert to the call duration.
d. During paging or ringing, the alarm will not sound when the alarm time is reached. However, if the snooze function is enabled and there is no paging or ringing, the alarm will sound again at the end of the snooze period.

#### 7.2.1 Turn on/off the Alarm
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select ALARM.
3. Press <OK> and <UP/DOWN> to select ON/OFF.
4. Press <OK> to confirm.
Note: If ON is selected, you will be asked to set the alarm time.

#### 7.2.2 Set the Alarm Time (If Alarm time is set to be ON)
1. Follow Steps 1 to 4 in Section 7.2.1.
2. Enter the alarm time in 24 hour format.
3. Press <OK> to display "SNOOZE".
4. Press <OK> and <UP/DOWN> to select snooze ON or OFF.
5. Press <OK> to confirm.

## 7.3 Handset Settings

#### 7.3.1 Set the Ringer Melody for Internal Calls
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS .
2. Press <OK> and <UP/DOWN> to select RING SETUP
3. Press <OK> and <UP/DOWN> to select INT RING.
4. Press <OK> and <UP/DOWN> to select the melody you want to hear for internal calls.

20

---

Note: The respective melody will be played while browsing the ringtone list.
5. Press <OK> to confirm.

#### 7.3.2 Set the Ringer Melody for External Calls
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select RING SETUP.
3. Press <OK> and <UP/DOWN> to select EXT RING.
4. Press <OK> and <UP/DOWN> to select melody you want to hear for external calls.
Note: The respective melody will be played while browsing the ringtone list.
5. Press <OK> to confirm.

#### 7.3.3 Set the Ringer Volume
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select RING SETUP
3. Press <OK> and <UP/DOWN> to select RING VOLUME.
4. Press <OK> and <UP/DOWN> to select the desired ringer volume (a total of 6 ringer volume levels including VOLUME OFF).
Note: The respective ringer volume will be played during your selection.
If VOLUME OFF is selected, the <Ringer Off> icon will be displayed.
5. Press <OK> to confirm.

#### 7.3.4 Set Alert Tones
Three different alert tones are set on by default, but can be turned off, if desired.
Key Tone - a single beep is emitted when you press a key.
Low Battery Tone - emitted while you are talking on the phone to alert you that you need to charge the handset batteries.
Out of Range Tone - emitted while you are talking on the phone to alert you to move closer to the base unit, before the call is lost.
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select TONE SETUP.
3. Press <OK> and <UP/DOWN> to select KEY TONE / BATTERY TONE / OUT OF RANGE.
4. Press <OK> and <UP/DOWN> to turn on or off these tones.
5. Press <OK> to confirm.

#### 7.3.5 Set the Handset Language
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select LANGUAGE.
3. Press <OK> and <UP/DOWN> to select the desired language.
4. Press <OK> to confirm.

21

---

#### 7.3.6 Rename the Handset
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS
2. Press <OK> and <UP/DOWN> to select RENAME HS.
3. Press <OK> and change the name of your handset, using <C/MUTE> to delete letters and the alphanumeric keys to enter up to 10 letters for the name.
4. Press <OK> to confirm.

#### 7.3.7 Choose the Information to be Displayed in Idle
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select HS DISPLAY.
3. Press <OK> and <UP/DOWN> to select HANDSET NAME or TIME.
4. Press <OK> to confirm.

#### 7.3.8 Set the Auto Answer
If you turn on the Auto Answer, you can answer a call automatically by just lifting the handset off the base or charger, without having to press any key.
1. Press <MENU> and <UP/DOWN> to select HS SETTINGS.
2. Press <OK> and <UP/DOWN> to select AUTO ANSWER.
3. Press <OK> and <UP/DOWN> to turn on or off the auto answer feature.
4. Press <OK> to confirm.

## 7.4 Base Settings

#### 7.4.1 De-register a Handset
This operation should only be necessary if one of your handsets becomes faulty or lost and needs to be replaced.
You will need to enter the 4-digit System PIN (Default PIN is 0000) in order to de-register a handset from the base station. A de-registered handset will have the antenna icon flashing and "REGISTER" on the display.
Note: You cannot de-register the handset that you are currently using.
1. Press <MENU> and <UP/DOWN> to select BS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DELETE HS.
3. Press <OK> and the display shows "PIN?".
4. Enter the 4-digit system PIN.
5. Press <OK> and the first handset number is displayed.
6. Press <UP/DOWN> to scroll through the list of registered handsets and select the number of the handset you want to de-register.
7. Press <OK> to confirm, and the chosen handset will be de-registered.

---

#### 7.4.2 Change the dial mode
You should normally leave the dialling mode at its default setting of TONE (also called DTMF) unless the phone is connected to an old exchange that only recognises PULSE dialling.
Note: If PULSE dialling is set, you can press the * key to switch to TONE dialling for the rest of that call.
1. Press <MENU> and <UP/DOWN> to select BS SETTINGS.
2. Press <OK> and <UP/DOWN> to select DIAL MODE.
3. Press <OK> and <UP/DOWN> to select TONE or PULSE (The current setting is indicated by an asterisk to the right).
4. Press <OK> to confirm.

#### 7.4.3 Change the Flash (Recall) Time
You may need to change the recall (flash) time if your phone is connected to a PBX. The recall time options are SHORT (the default value of 100ms), MEDIUM (300ms) or LONG (600ms).
1. Press <MENU> and <UP/DOWN> to select BS SETTINGS.
2. Press <OK> and <UP/DOWN> to select FLASH TIME.
3. Press <OK> and <UP/DOWN> to select your desired flash time (SHORT, MEDIUM, LONG, with the current setting indicated by an asterisk to the right).
4. Press <OK> to confirm.

#### 7.4.4 Change the System PIN Code
A 4-digit system PIN code is used for changing the system settings of the base station. It is used to protect your phone against unauthorised use. The default system PIN code is 0000.
1. Press <MENU> and <UP/DOWN> to select BS SETTINGS.
2. Press <OK> and <UP/DOWN> to select CHANGE PIN.
3. Press <OK> and you are requested to enter the old 4-digit system PIN.
4. Enter the old system PIN.
5. Press <OK> and enter the new system PIN.
6. Press <OK> and enter the new system PIN again.
Note: If the new PIN entered in Step 6 is not the same as the new system PIN entered in Step 5, you must enter the new system PIN at step 5 again.
7. Press <OK> to confirm

23

---

## 7.5 Registration

IMPORTANT: When you purchase a Lifestyle 1910 system, all handsets are already registered to your base, so you do not need to register them.
Handset registration is only necessary when you buy extra handsets or if a handset has become faulty.
You can register additional handsets to have up to five handsets per base unit, with each handset's number (1 to 5) shown on its display. (Note: each handset can only be registered to one base.)

To register a new handset to your base:
1. Press and hold <PAGE> on the base station for more than five seconds, to put the base station into registration mode. (Note: there is no feedback to know it is in registration mode.) It will stay in registration mode for about 1 minute, so the following handset sequence must be completed within this time
2. Press <MENU> and <UP/DOWN> to select REGISTRATION.
3. Press <OK> and you are requested to enter the 4-digit system PIN.
4. Enter the 4-digit system PIN.
5. Press <OK> to confirm, and the display will show SEARCHING.
If the handset registration is successful, you will hear a confirmation tone and the <antenna icon> will stop flashing. This may take a short while.
The handset will automatically be allocated the next available handset number. This handset number is shown in the handset display in standby mode. If the handset registration is unsuccessful, the <antenna icon> will still flash and the display will return to "REGISTER", so you will need to repeat the registration process.

## 7.6 Reset Your Phone

You can reset your phone to the default settings . After a reset, all your personal settings, call list entries, redial list entries, and answering machine messages will be deleted but your phonebook remains unchanged.
1. Press <MENU> and <UP/DOWN> to select DEFAULT.
2. Press <OK> and you are requested to enter the 4-digit system PIN.
3. Enter the 4-digit system PIN.
4. Press <OK> to display CONFIRM?
5. Press <OK> to confirm, and the phone will be reset to its default settings.

24

---

## 8 ANSWERING MACHINE

Your phone includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of up to 15 minutes, depending on which compression rate is selected. As well as recording incoming messages, you can record memos for other users of your phone.
If the answering machine memory is full, the Handset will display TAM FULL alternately with the handset's name or time, depending on the handset standby display mode set (see section 7.3.7), and you will have to delete some messages before any new ones can be recorded.

### 8.1 Turn On/Off the Answering Machine

You can turn the answering machine on or off using the handset.
When the answering machine is set to ON, calls will be answered after the set answer delay and the caller can then leave you a message.
When the answering machine is set to OFF, calls will be answered after about 14 rings and the answer only message will be played to your callers. They will not be able to leave you a message.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM ON/OFF.
3. Press <OK> and <UP/DOWN> to select ON or OFF.
4. Press <OK> to confirm.
➤ If answering machine is set to ON, <TAM ON icon> displays on the handset LCD.
➤ If answering machine is set to OFF, <TAM ON icon> will not display on the handset LCD.

### 8.2 Listen to the Messages in the Answering Machine

When new messages are recorded on the answering machine, the <TAM icon> flashes on the handset display until all the new messages are played.
After a new message is played it will be saved as an old message automatically unless it is deleted.
Old messages will be played after all new messages are played completely.
1. Press the TAM Control key <PLAY / STOP> to start the message playback and the screen displays the date and time information of the message being played.
Note: Alternatively press <MENU>, <UP/DOWN> to ANS. MACHINE, <OK> to MSG PLAYBACK, and <OK> to start the message playback.
Note: A <STAR icon> is placed at the centre of the bottom of the handset display to indicate that it is a new message.
When a message has been played, the <STAR icon> will disappear and will not be shown when you listen to this message again.
Note: If there are no messages, the handset display will briefly show "00-00  00-00" then return to MSG PLAYBACK.

25

---

2. During message playback, press <UP> or <DOWN> to increase or decrease the message playback volume respectively.
3. During playback, press the TAM Control Keys for the following functions:
<PLAY/STOP> to stop the playback
<SKIP BACKWARD> to repeat the current message from the start
<SKIP BACKWARD> twice to play the previous message
<SKIP FORWARD> to play the next message
<DELETE> to delete the current message and play the next message
Alternatively, press <MENU> and <UP/DOWN> to select STOP, FORWARD, PREVIOUS, DELETE to perform the functions
Note: Alternatively, you can use the following shortcut keys to control different operations during message playback.
Press <Key 5> to stop message playback.
Press <Key 4> once to skip to repeat playing the current message from the beginning. Press twice to skip backward to play the previous message.
Press <Key 6> to skip to play next message.
Press <Key 2> to delete the current message playback.

### 8.3 Delete All Messages in the Answering Machine

In idle mode, press and hold the TAM Control key <DELETE>. All old messages will be deleted and the display will briefly show EMPTY. New messages will not be deleted.
Note: Alternatively,
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select DELETE ALL.
3. Press <OK> to display CONFIRM?
4. Press <OK> to delete all old messages.
Note : If there are no more messages in the answering machine, "EMPTY" will display and return back to ANS. MACHINE menu.

### 8.4 Record Memo

You can record your memo message for another user. When you record a memo, you can listen back to it in the same way as answering machine messages. Memo recording can still function even when the answering machine is turned off.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select MEMO.
3. Press <OK> to start memo recording and " RECORDING " is displayed.
4. Press <OK> to stop memo recording and save the memo.
OR
4. Press <C> to stop memo recording without saving and return back to ANS. MACHINE menu.

### 8.5 Answering Machine Settings

You can use the TAM SETTINGS menu through the handset to change the settings of your answering machine.

26

---

### 8.5.1 Set the Answer Mode

By default, the answer machine is set in ANS & REC mode which allows callers to leave a message. This mode can be changed to ANSWER ONLY which does not allow callers to leave a message. In that case, your callers will be prompted to call back later.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select ANSWER MODE.
4. Press <OK> and <UP/DOWN> to select ANS & REC or ANSWER ONLY.
5. Press <OK> to confirm.
When your answering machine memory is full and the answer mode is in ANS & RECORD, the answer mode will change to ANSWER ONLY automatically. It will change to ANS & RECORD mode automatically after some messages have been deleted.

### 8.5.2 Set the Outgoing Message (OGM) Language

The answering machine announces the outgoing message when it answers a call. There is a pre-set OGM for each of ANS & REC mode or ANSWER ONLY mode, which can only be in English or French (Francais) on this model.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select TAM LANGUAGE.
4. Press <OK> and <UP/DOWN> to select your desired OGM language.
5. Press <OK> to confirm.

### 8.5.3 Record Your Own Outgoing Message (OGM)

You can record your own OGM for ANS & REC mode and ANSWER ONLY mode.
When you record your own OGM, it will be used when the answering machine answers the call. If your personalised OGM is deleted, the pre-set OGM will be restored automatically.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select OGM SETTINGS.
4. Press <OK> and <UP/DOWN> to select ANS & REC or ANSWER ONLY.
5. Press <OK> and <UP/DOWN> to select RECORD MESS.
6. Press <OK> to start recording your personalised OGM and " RECORDING " is displayed on the screen.
7. Press <OK> to stop and save your personalised OGM. Your newly saved OGM will playback automatically.
Alternatively, press <BACK> to return to previous screen without saving the personalised OGM.

27

---

### 8.5.4 Playback and Delete the Outgoing Message (OGM)

You can playback your own personalised OGM or the pre-set OGM for ANS & REC mode or ANSWER ONLY mode and choose to delete your personalised OGM during playback and record a new one whenever you want.
Please note that pre-set OGM cannot be deleted.

#### 8.5.4.1 Playback the OGM
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select OGM SETTINGS.
4. Press <OK> and <UP/DOWN> to select ANS & REC or ANSWER ONLY.
5. Press <OK> and <UP/DOWN> to select PLAYBACK.
6. Press <OK> to playback your current OGM and "PLAYING OGM" is displayed on the screen.
7. Press <OK> to stop the OGM playback and return to the previous menu.
Note: If a personalised OGM has not been recorded, the pre-set OGM will be played.

#### 8.5.4.2 Delete the Personalised OGM
1. Repeat Steps 1 to 6 in Section 8.5.4.1
2. Press <C> while the OGM is playing to delete your personalised OGM and return to the previous menu and the OGM is restored automatically.
Note: If the pre-set OGM is playing, you are not allowed to delete it, so pressing <C> will just stop the playback and return to the previous menu.

### 8.5.5 Set the Answer Delay

You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after two to eight rings or TIME SAVER. If Time Saver is set the answering machine will answer after 4 rings if there are no new messages, or after 2 rings if there is a new message, so if you call in and you don't get an answer after 2 or 3 rings, you can hang up and save on call charges.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select ANSWER DELAY (Available options: 2 RINGS, 4 RINGS, 6 RINGS, 8 RINGS or TIME SAVER).
4. Press <OK> and <UP/DOWN> to select your desired answer delay.
5. Press <OK> to confirm.

28

---

| Keys | | Functions | |
|---|---|---|---|
| | While message is not playing | While message is playing | |
| 2 | | Delete the current message playing | |
| 4 | | Repeat playing the current message Repeat playing the current message. Press twice to skip backward to play the previous message | |
| 5 | Play the message | Stop the current message playback | |
| 6 | | Skip to play the next message | |
| 7 | Turn on the answering machine | | |
| 8 | | Stop the current message playback | |
| 9 | Turn off the answering machine | Skip backward to play the previous message playback | |

29

---

### 8.5.6 Set the Recording Time of Incoming Message

You can set the maximum length of the recording time of the incoming messages.
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select RECORD TIME (Available options: 60S, 120S, 180S, or UNLIMITED)
4. Press <OK> and <UP/DOWN> to select your desired recording time.
5. Press <OK> to confirm.

### 8.5.7 Call Screening

When the answering machine is on and takes a call, you can listen to the caller leaving a message. You can then identify the caller and decide whether to take the call in person.
If the answering machine is set to ON, when there is an incoming message, the handset will display "SCREENING?"
1. Press <OK> to start call screening. You can listen.
You can listen to who is leaving the message and decide whether to pick up the call or not.
2. The handset will display "SCREENING".
3. You can adjust the speaker volume by pressing <UP or DOWN>.
OR
2. Press <Back> to return to previous screen and you cannot hear the recording.
At any time if you want to pick up the call, you press <TALK ON> and the message recording will be stopped automatically. If the answering machine is in the process of recording, the message already stored will be saved.

### 8.5.8 Change the Compression Rate

Three different compression rates (HIGH, MEDIUM and LOW) are provided for you to select different quality levels of recording incoming messages. The lower the compression rate, the higher the recording quality level attained, but the shorter the total recording time available. ( LOW=7 minutes, MEDIUM=10 minutes, HIGH=15 minutes approx).
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select COMPRESSION.
4. Press <OK> and <UP/DOWN> to select your desired compression rate.
5. Press <OK> to confirm.

### 8.5.9 Activate Remote Access

Your phone lets you check your messages, or otherwise operate your answering machine, by calling the answering machine when you are away from home and then dialling a 4-digit remote access PIN from a tone-dialling phone. The 4-digit remote access PIN code is used to prevent other people from unauthorised access of your answering machine.

30

---

#### 8.5.9.1 Change the 4-Digit Remote Access PIN
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select CHANGE PIN.
4. Press <OK> and enter the Old PIN. (Default Remote Access PIN is 0000).
5. Press <OK> and enter the New PIN.
6. Press <OK> and enter the New PIN again.
Note: If the new PIN entered in Step 6 is not the same as the new system PIN entered in Step 5, you must enter the new system PIN at step 5 again.
7. Press <OK> to confirm.

#### 8.5.9.2 Activate or Deactivate the Remote Access
1. Press <MENU> and <UP/DOWN> to select ANS. MACHINE.
2. Press <OK> and <UP/DOWN> to select TAM SETTINGS.
3. Press <OK> and <UP/DOWN> to select REMOTE ACC.
4. Press <OK> and <UP/DOWN> to select ON or OFF to turn the remote access on or off respectively.
5. Press <OK> to confirm.

#### 8.5.9.3 Access Your Answering Machine Remotely
You can ring your phone from another tone-dialing phone to switch the answering machine on or off, and/or listen to your messages remotely.
1. Place a call from a tone-dialing phone to your phone.
2. When the answering machine answers the call and starts playing the OGM, press <KEY *>.
3. Enter the 4-digit Remote Access PIN (default PIN is 0000).
Note: The * must be entered while the OGM is still playing, and the 4-digit PIN should be follow without any delays.
Note: If the 4-digit Remote Access PIN is entered incorrectly three times consecutively, the line will be released automatically.
4. Press the following keys to carry out your desired function.

| Keys | While message is not playing | Functions While message is playing |
|---|---|---|
| 2 | | Delete the current message playing |
| 4 | | Repeat playing the current message. Press twice to skip backward to play the previous message. |
| 5 | Play the message | Stop the current message playback |
| 6 | | Skip to play the next message |
| 7 | Turn on the answering machine | |
| 8 | | Stop the current message playback |
| 9 | Turn off the answering machine | |

Note: If your answering machine is switched off, the phone will enter into the remote access mode after 10 rings.
You can then enter the <KEY *> and the 4-digit remote a ccess PIN (Default Remote Access PIN is 0000) to activate the remote access feature.

31

---

## 9 TROUBLESHOOTING

| Problem | Causes | Solutions |
|---|---|---|
| No dialling tone when pressing <TALK ON> key | a. The connection cord of the base station is not plugged in. b. The adapter cord is not plugged in correctly in the base station. c. Another handset is using the base to make a call. d. Wrong telephone line cord | a. Check the connections. Unplug and plug back in the mains. b. Check that the telephone cord has been plugged into the base station and the phone socket. c. Check the base station plug and the 230V plug (remove and plug-in). d. Wait until the line is unoccupied. d.Use the original telephone line cord. |
| When connect to a PBX, no and/or wrong connection after dialing | | Insert the dialling prefix |
| "SEARCHING" is displayed | a. Base station out of range. b. Base station not connected to mains. | Reduce the range. Connect base station to mains. |
| The call does not work | Service not activated or wrong operator or wrong setting | Check your Subscription with network or change the dial mode. |
| No display | Empty battery | Recharge battery |
| **Answering Machine** | | |
| The unit does not record new messages | The answering machine is turned off. | Turn on the answering machine. |

This telephone is not equipped with a grounding function, and therefore some of the functions may be limited when used in PBX systems.

**Technical Support**
If the fault persists...
Disconnect all other instruments connected to the same line as the Lifestyle 1910 system and try to make a call.
Disconnect the base unit from the telephone line and plug a different phone into the master telephone socket.

32

---

Try making a call. If this works, the line is OK.
If the call does not work, and you are using a two-way socket adapter, remove it and plug a telephone directly into the socket. If the call now works, the adapter may be faulty.

## 10 DECLARATION OF CONFORMITY

We the manufacturer / importer: Binatone Telecom Plc, 1 Apsley Way London, NW2 7HF.
