

# i560

BUBBLE JET PRINTER

BUBBLE JET PRINTER

**Fast Text and Photo Printing Just Became Easier.**

**Rejuvenate your creative mind and unleash the speed of print.**

The Canon i560 Bubble Jet Printer delivers super-quality photos, detailed printing from the web, crisp text and exclusive Canon features all at a great value. It achieves print speeds of up to 22 ppm in black and up to 15 ppm in colour along with resolution of up to 4800 x 1200 dpi.\* Canon Advanced MicroFine Droplet Technology™ uses a revolutionary nozzle system that ejects consistent prescribed-volume ink droplets in microscopic sizes for remarkable print clarity. The i560 printer's newly designed print head produces ultra-fine 2-picolitre and 5-picolitre ink droplets, helping you to produce a smoother, more photo-realistic image. Your photos, graphics, web pages and reports will look clean and professional.

**Shoot. Connect. Print.**

The i560 printer brings you a new level of photo printing for the home: edge-to-edge true borderless printing, with the look and feel of a traditional photograph. Now you can produce 4" x 6", 5" x 7" or 8.5" x 11" borderless prints\*\* with stunning quality, perfect for framing or the scrapbook. Save yourself a trip to the local photo lab and produce your own great looking 4" x 6" prints in approximately 50 seconds. With "Bubble Jet Direct" \*\*\* and "PictBridge" camera direct printing you can print with or without a computer. Simply connect a Canon or PictBridge compatible digital camera or digital camcorder to your i560 printer and PRINT!

**Exclusive software makes photo and web printing easier than ever.**

The i560 printer supports the worldwide standard Exif 2.2 (Exchangeable Image Format File), so when an Exif-compliant camera captures a photo, important camera settings and shooting conditions are saved in the JPEG image file. Our exclusive Easy-PhotoPrint software analyzes the recorded data and automatically adjusts printer driver settings for optimum image processing. To eliminate the trial and error of Web page printing, Canon includes Easy-WebPrint† software. It's fast and simple - pages print just as they're seen on screen.

Camera not included

\* Ink droplets can be placed with a minimum pitch of 1/4800 inch.

\*\* Mac OS X borderless printing requires ver. 10.2 or later.

\*\*\*For a listing of compatible Canon digital cameras and camcorders featuring Bubble Jet Direct technology, visit [www.usa.canon.com/consumer/bubblejetdirect](http://www.usa.canon.com/consumer/bubblejetdirect)
