

# 3 Tier Pet Play Cage

10

## Instructions for use

Thank you for purchasing an Iris product.

Keep these instructions for future use.

Iris USA reserves the right to modify the cage at any time.

## Pet cage usage

*IRIS USA will not be responsible for damage to the cage or personal injury if you do not follow this notice. Please read the following carefully to protect the cage from damage and to avoid personal or pet injury.*

- This cage is for indoor pet use only.
- Do not put the cage in an area where there is exposure to the sun, high temperatures or high humidity (color will fade or product could become moldy).

- Do not drag the cage. Dismantle the product prior to moving or lifting.
- Put the cage on a flat surface during use. Do not sit on or put anything on the cage.
- Be careful when using the cage on a wood floor. (It will scratch your floor)

- Keep children away from the pet cage.
- Do not shake, ride or exert weight on the cage.
- Be careful not to pinch your hands or hurt your pet when opening and closing the door.
- Always make sure door is locked and properly secured when pet is inside.

- Do not use a collar or chain on the pet while inside the cage.
- Take caution that the pet can put their paws or other body parts between the wire, please keep watch while they are in the cage.

- Do not let small pets use the cage. (Their head could become stuck between the wires).
- Wipe the product immediately if it gets wet.
- Do not put anything wet on the cage.
- Do not put tape or stickers on the cage surface.
- Scratching the wire will cause it to rust.
- Take caution when opening the door to the cage to avoid pinching or scraping the animal.
- Pet should fit comfortably inside the cage.
- Do not shake or drop the cage.
- Periodically check the condition of the pet while inside the cage.
- If cage is damaged, discontinue use.
- IRIS USA will not guarantee the cage against damage caused by the pet.
- Please make sure the cage is assembled correctly and the door is properly locked while in use.
- IRIS USA will not guarantee the life of the cage in the event of a natural disaster.

## How to clean the cage

- Use soap and water or furniture polish and wipe with a cloth.
- Do not use bleach, alcohol or benzene.
- When cleaning the cage with a disinfectant, please dilute it before use.
