

## OSPREY ADDONS™

Customize and protect your pack with Osprey's full line of AddOns.™ For the full lineup, please visit your local Osprey retailer or visit our web site [www.ospreypacks.com](http://www.ospreypacks.com).

## PACK CARE

Osprey recommends Nikwax™ products for pack care. For complete instructions on cleaning your pack, visit: [www.ospreypacks.com/PackTech/PackCare](http://www.ospreypacks.com/PackTech/PackCare)

Your pack is an extremely durable product built for years of use and abuse. However, some basic procedures will ensure that your pack holds up optimally.

- After each trip be sure to clean out your pack thoroughly.
- If it's wet, hang it to dry.
- Loosen all the straps.
- Wash your pack every now and then. (Do not immerse travel packs with our High Road™ Wheeled Chassis.)

## PACK YOUR PACK

Loading your pack correctly optimizes comfort while you are carrying it. For complete information visit: [www.ospreypacks.com/PackTech/HowToPackYourPack](http://www.ospreypacks.com/PackTech/HowToPackYourPack)

## SHARED FEATURES

### Modified BioStretch™ Torso Adjustable Harness

The Escapist Series packs feature the ventilated and supportive Modified BioStretch™ harness consisting of mesh covered slotted foam, adjustable sternum strap with rescue whistle buckle and an integrated, zippered electronics pocket.

Two torso adjustable sizes provide exceptional fit and adjustability (Escapist 25 and 30 only). To adjust torso sizing: **A** Loosen load lifter straps at top of harness, **B** locate arrow icon and slide a hand between backpanel and harness to separate the hook and loop closure, **C** slide harness into position using arrows as a guide, **D** press firmly to re-engage closure.

### External Hydration Compartment

Located between the backpanel and main body of your Escapist Series pack is an exterior hydration compartment designed for both easy access and to limit impact on interior compartment space. **A** Locate and loosen load-lifter/harness straps to access. **B** Place the reservoir in the compartment using the sewn-in hanger as needed. **C** Route the hose left/right through elastic routers on the harness as preferred, and re-tighten load lifter straps.

### Panel Load Access

Every Escapist Series pack features dual zippered, panel load main compartment access to internal contents.

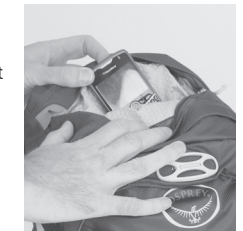

### Bio-Stretch™ Hipbelt

Every Escapist Series pack features a modified, BioStretch™ Hipbelt consisting of mesh covered, slotted foam with dual zippered hipbelt pockets and a modified, straight ErgoPull™ hipbelt closure designed for comfort and performance. Note: The Escapist 15 and 20 do not feature hipbelt pockets or slotted foam hipbelt

### Top Slash Pocket

A top, zippered slash pocket allows additional organization/storage solutions and features heat embossed fabric to protect valuable items from being scratched while allowing for easy clean up of spills.

### Front Panel Pocket

Escapist Series packs feature a dual zippered, front panel compartment with internal fabric stash pocket, key clip, tool organization sleeves and mesh pockets ideal for carrying pumps, bike tools and tubes.

### AirScape™ Suspension

Each Escapist Series pack features the AirScape™ backpanel consisting of mesh-covered, ridge molded foam with air channels to provide the utmost comfort, carry and performance.

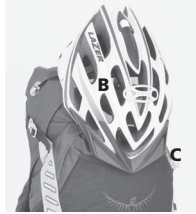

### ErgoPull™ Closure

All Escapist hipbelts use our exclusive, modified straight ErgoPull™ design. To operate, loosen the webbing enough so you can connect the center buckle. Then grasp the loose ends of the webbing on either side and pull in and across evenly with both hands at the same time.

### LidLock™ Helmet Clip

Every Escapist Series pack features a LidLock™ helmet clip with elasticized load control system providing quick and secure helmet carry. To use A Locate LidLock™ clip near the top of the pack's front panel and pull away from the pack. B In the vertical position, pass LidLock™ through helmet vent from the bottom and engage in horizontal position. C On the right outside panel of the pack find a cord loop to increase or decrease tension. Reverse to remove helmet.

### Hydraulics™ Reservoir

Add an Osprey Hydraulics™ 2 or 3 liter hydration reservoir to your pack for stable, efficient, on-the-go water management. For more information, please visit your local Osprey retailer or visit [www.ospreypacks.com](http://www.ospreypacks.com).

### Base Compartment

The Escapist 30 and 25 feature a bottom, dual zippered compartment with sewn-in fabric divider ideal for the storage of dirty clothes, shoes and a multitude of other essential items.

### Front and Side Mesh Pockets

In addition to a front mesh pocket (except Escapist 15), each Escapist Series pack features two side mesh pockets with InsideOut™ compression straps as desired. A locate the duckbill buckle to the top and side of the stretch woven side pocket and unthread the webbing through this buckle and the corresponding slider buckle near the back panel of the pack. B Now route the webbing for inner or outer compression by positioning the slider buckle inside or outside of the side pocket and reversing the process above.

### Blinker Light Attachment

Near the base of every Escapist Series pack you will find a reinforced blinker light attachment tab for the utmost in visibility

### Integrated Raincover

Every Escapist Series pack features a built-in, high visibility raincover designed to protect your bag's contents in even the most adverse conditions. The raincover features reflective materials and a built-in blinker patch to increase safety. To access, A locate the zippered raincover compartment near the base of the pack, unzip and pull raincover from compartment to slip over top and bottom of pack; B tension into place using the cord lock at the bottom of the raincover. Reverse this process to return raincover to compartment. To remove the raincover altogether, unfasten the hasp from the cord loop and remove. Note: To prevent mildew, remove raincover and allow to dry entirely after use in the rain.
