Dear User

Thanks a lot for your support and purchasing of our TFT LCD headrest monitor. We appreciate your purchase of our product. For maximum enjoyment and prolonged life of this unit, we strongly recommend you read this owner's manual in detail before attempting to operate the unit. Please retain this manual for future reference.

The unit you have purchased has the following advantages

- 1、Radiation shielded
- 2、Power saving
- 3、High clarity of LCD screen
- 4、High Brightness/contrast
- 5、Wide view angle
- 6、Quick response time
- 7、On Screen Display (OSD) and Infrared Remote Control
- 8、Multiple video/audio cabling options i.e.: VCD /DVD, portable video camera, webcam, GPS and portable electronic games

WARNING

This unit is not intended for installation in the front driver/passenger area where it may be seen by the driver. Installation of this unit where it may impair the driver's concentration is dangerous. The manufacturer or retailer assumes no responsibility for failing to obey the above warnings. To reduce the risk of electric shock, please do not expose this unit to rain, moisture or attempt to open the unit. There are no user serviceable parts inside the unit.

Caution:

1. Please read these instructions carefully before operating the unit and observe the relevant warnings.
2. Please keep away from moisture and direct sunlight.
3. Do not attempt to disassemble or remodel the unit yourself to avoid electric shock.
4. Please clean the display with a dry and soft cloth. Do not clean the display with any alcohol or chemical cleaner.
5. Please ask a qualified engineer to install the unit.
6. Do not try to recharge the remote control battery.
- 7 Please keep the remote control battery away from children.
8. The display may sometimes show pixels (light dots or dark dots) during use. This is normal and does not indicate any malfunction.
