

AR-5316

ADVANCED DIGITAL IMAGER

SHARP®

versatile performance for all your business needs.

Designed for small offices and workgroups, the new Sharp AR-5316 Digital IMAGER™ delivers the performance you need in a multifunction document system — all in a cost-efficient, compact design. With 11" x 17" copying capability, standard 600 dpi host-based printing, a 250-sheet paper capacity, and 100-sheet bypass tray, this efficient performer can easily keep up with the pace of busy offices. With an optional network print server, the Sharp AR-5316 Digital IMAGER can be easily shared by additional users in your office or workgroup. Combine all these features with Sharp's world-class reliability, and you've got a small office document system that's hard to beat.

Efficient, high-quality copying

The AR-5316 IMAGER provides many flexible copy features designed to grow with your business. With a speedy, 16 page-per-minute copy speed and the capability to output documents at 11" x 17", the AR-5316 IMAGER delivers advanced flexibility for any small office or workgroup. With customer-replaceable supplies that are easy to install, you can rest assured that your workflow will always keep moving.

The user-friendly control panel makes it easy to use the AR-5316 IMAGER's advanced copy features.

Advanced network printing

Growing businesses or small workgroups can easily add network printing with the optional PRICOM™ 3100 print server. With a built-in RJ-45 Ethernet port, this compact print server connects directly into the parallel port of the AR-5316. With simple, plug-and-play operation and an easy-to-use interface, the PRICOM 3100 server delivers advanced features that include web-based management, IP filtering, and intelligent device monitoring.
