

## T-i<sup>X</sup> 3500

### Electronic Coin and Bill Counter

#### Connected Cash Management Solution

Every sector of business faces different challenges, so we've designed the T-i<sup>X</sup> 3500 to adapt to your specific cash handling needs. The integrated keypad makes it easier to enter balances, operator IDs and other reference numbers for faster cash counts and better reporting. The T-i<sup>X</sup> 3500 is available in single or multi-till options giving you the ability to store count data for up to 150 registers.

Cash counting data can be sent to a TellerMate printer or direct to your PC or back office via USB or serial connection. This data can be used to identify discrepancies and act on them swiftly and confidently.

*Fast and accurate counting is a must for any business that handles cash. The T-i<sup>X</sup> 3500 gives you valuable data, counting cash and coupons alongside card and check balances.*

#### Benefits

- Transmit valuable and accurate count data to the back office system
- Improve management decisions with easy access to cash counting information
- Spend more time serving customers and less time handling cash
- Improve cash security through a detailed audit trail

## Smart, simple and tough

We design our cash counters so that anyone in your business can learn how to use them quickly and easily. Our intuitive menus guide users through the steps of each counting task. The large backlit display makes features easy to find and use. Our cash counters are light, portable and tough with a liquid resistant key mat to protect against spills.
