**A HERITAGE OF CRAFTSMANSHIP**

In 1897 the Original Swiss Army Knife was created in the small village of Ibach, Switzerland. Since that time Victorinox has become known for precision, quality, functionality and versatility. This century old heritage has been extended to Victorinox Lighting Gear, which embodies the distinctive design and superior performance Victorinox has come to represent over the years.

**Congratulations on your purchase of a Victorinox LED Flashlight. Please take a moment to read these instructions.**

**FLASHLIGHT OPERATION**

Your Victorinox LED Flashlight has a rotating head for on/off operation. Rotate the head clockwise to turn **ON** and counter-clockwise to turn **OFF**.

**BATTERY REPLACEMENT AND SIZE**

Depending on which size Victorinox Flashlight you purchased, AAA, AA or C, replace with appropriate alkaline batteries. Insert new batteries with the same orientation as illustrated.

**MAINTENANCE AND PRECAUTIONS**

Periodically clean all threads and apply petroleum jelly to threads and O-rings. Battery installation and disposal should be handled by an adult.

**Victorinox LED Flashlights are water resistant but should not be submerged in water.**
